TO ALL PERSONS WHO USE FEED AND FERTILIZER

The Nickels for Know-How referendum will be held August 23, 1957, from 8 a. m. to 6 p. m. at the following places: MURPHY, Courthouse ASC Office, Farmers Federation Store, Stiles Produce Co.; PEACHTREE—J. C. Kilpatrick's Store; MARBLE—Gain Coffey's Store; ANDREWS—Watkins Store; Woods Supermarket; Franklin Cash Store; MARTINS CREEK—Dub Martins Store, Bob King's Store; NOTLA—F. H. Byers Store, Radcliff Store; HOTOUSE—McGill's Store, Simmon's Store; BEAVERDAM—Morley's Store; HANGINGDOG—Vester Kent's Store; BATES CREEK—Clyde Dockery's Store; SUIT—Wood's Store; SHOAL CREEK—Donley & Suit Store; TOPTON—Hubert Hollway Store; WEHUTTY—Allen Brendle's Store; EBENEZER—

Kephart's Store; OAK PARK—Dockery's Store; BRASSTOWN—Hemphill's Store.

QUESTIONS AND ANSWERS ON NICKELS FOR KNOW-HOW THE PLAN

Q. What is the "Nickels for Know-How" proposal?
A. It is a plan to continue to expand agricultural research and education in North Carolina through a farmer contribution of five cents per ton on all feed and fertilizer sold in the state.

Q. Why a special contribution? Why don't we pay for more research out of our regular tax money?
A. North Carolina has such a diversified agriculture — such a varied climate, so many different crops, insects, diseases and weed problems that even the generous appropriations passed by the recent sessions of the General Assembly fall short of needs.

Q. Doesn't this special contribution tend to reduce Federal and State appropriations for research?
A. No. In fact, private contributions tend to increase appropriations. Past experience shows that a state legislature feels more like helping a group which is already helping itself.

THE VOTE

Q. When will the referendum be held?
A. On August 23, 1957. Polling hours will be set by each county and will be announced by newspapers, farm magazines, television and radio.

Q. Where will the voting be conducted?
A. In most communities, the voting place will be the same as that used as ASC elections, plus others the County Nickels for Know-How Committee will add. Poll locations will be announced locally and advertised with posters.

Q. Must I vote in my own township?
A. No. You may vote wherever it is most convenient for you to vote. However, you will be asked to sign an election roster wherever you vote so as to avoid duplicate ballots.

Q. Do I have to register especially for this referendum?
A. No.

Q. Who is eligible to vote?
A. As in the past two votings in 1951 and 1954, all persons who use feed or fertilizer and their wives or husbands are eligible. Four-H Club, FFA, FHA, and NFA members with crop or livestock projects and who use feed or fertilizer are also eligible.

Q. What period of time does this referendum cover?
A. Three years. To be continued beyond the three years, the plan must be renewed by referendum in 1960.

Q. What kind of majority is required for it to carry?
A. It must be approved by two-thirds of those voting. In the last referendum in 1954, North Carolina farmers gave this plan a 10 to 1 vote of approval.

THE OUTCOME

Q. Is the amount deducted a nickel per ton?
A. It's a nickel per ton. That figures out to be only about a fourth of a penny per 100-pound bag.

Q. Where are the nickels collected?
A. At the manufacturers. The five cents is included in the price of the feed and fertilizer as it is sold to the retailer and finally to the farmer.

Q. Then I am not bothered with paying an extra nickel or penny every time I buy some feed or fertilizer?
A. No. The contribution will already have been paid and the price of the feed and fertilizer raised accordingly. During the past six years the Nickels for Know-How program has been in force, the plan has worked very smoothly.

Q. I have heard this nickel per ton referred to as a tax. Is it?
A. No. It is a contribution because you can get it refunded if you wish.

Q. How much does it cost me?
A. It costs the average farmer 30 cents per year. Only the largest farmers will contribute more than a dollar per year.

Q. Who collects the money?
A. The North Carolina Department of Agriculture collects the money free of charge along with inspection fees. The money is then turned over to the Agricultural Foundation at State College.

Q. What determines how this money is spent?
A. The Board of Directors of the Agricultural Foundation which is composed of 100 of the State's outstanding farmers and leaders. Each county in the state has one director on this Agricultural Foundation Board.

Katie Kord
Says...

Cheesecake is tasty, wholesome, and easy to make. And when it takes no baking, you can't beat it as a desert for these hot August days.

To make this delightfully different treat, you'll need 2 envelopes gelatine; 1 cup sugar; 1/2 teaspoon salt; 2 egg yolks; beaten; 1 cup milk; 1 teaspoon grated lemon rind; 3 cups creamed cottage cheese (24 ounces); sieved; 1 tablespoon lemon juice; 1 teaspoon vanilla; 2 tablespoons melted butter; 1 tablespoon sugar; 1/2 cup graham cracker crumbs; teaspoon cinnamon; 1/4 teaspoon nutmeg; 2 egg whites, stiffly beaten; and 1 cup heavy cream, whipped.

Mix gelatine, sugar, and salt in saucepan. Beat egg yolks, mix with cup of milk, and add to gelatine mixture. Cook on very low heat, stirring constantly till gelatine dissolves and mixture thickens (about 10 minutes). Remove from heat and add lemon rind. Cool.

Stir in sieved, creamed cheese, lemon juice, and vanilla. Chill, stirring occasionally till mixture mounds slightly when dropped from a spoon.

While mixture is chilling, make crumb topping by mixing the two tablespoons melted butter, one tablespoon sugar, half cup graham cracker crumbs, cinnamon, and nutmeg. Set aside.

Fold egg whites and whipped cream into chilled gelatine mixture. Turn into 8-inch spring form pan, and sprinkle top with crumb mixture. Chill till firm. Yield, 10 to 12 servings.

Note: This cheese cake may be frozen and kept from one to two months.

The small amount of time and effort to take a soil sample may save hundreds of dollars in lime and fertilizer as well as in crop yields.
