

**LAST WEEK**  
 Hoyt Zimmerman and Hobby O'Dell of the U. S. Army, stationed at Fort Leonardwood, Mo. are spending the holidays at home.  
 Mr. and Mrs. Brown Caldwell spent Monday in Atlanta.  
 Mr. and Mrs. Earl Tabor and children of Salem, S. C. are visiting friends here this week.  
 Wade Zimmerman of Sanford, is visiting relatives here this week. He will return to N. C. State College Sept. 14.  
 Mr. and Mrs. Max Witt are visiting relatives this week.  
 Mr. and Mrs. Carl Ledford carried their daughter, Diana, to Atlanta to a hospital.

**Says...**

**Wolf Creek School Enrolls 62 Pupils**  
 Wolf Creek School opened last week with an enrollment of 62, the largest for a number of years, with Miss Maud E. Collins as principal and Mrs. Garland Haney as assistant.  
 The teachers were greeted the first morning by a large number of interested parents who came prepared to help the teachers plan for a number of things to be carried out during the year.  
 A meeting was held Tuesday evening for the benefit of those who could not be present the first day.  
 Among the plans made for the improvement of the school and community are the following:  
 A Home Demonstration Club; a 4-H Club, and a U. S. flag.

Everyone wants as much leisure as possible—and this goes for the busy homemaker as well as for the worker employed outside the home. But the homemaker finds it much harder to get away from her job than other classes of workers, especially if there are small children in the home.  
 For this reason, this is addressed to YOU—the busy homemaker whose "work is never done."  
 Your best bet for acquiring leisure—just for relaxation or for some fascinating hobby—is to use your worksaving appliances to the fullest on some kind of schedule. With fall here and winter just around the corner, now is a good time to start.  
 And the best starting place is with fall cleaning. For this you'll use your vacuum cleaner to give your home a thorough going over.

With its attachments, you can reach every corner and crevice to remove all accumulated summer dirt and dust. Then, when winter does arrive, a weekly schedule for cleaning will make your work shorter and easier.  
 If your floors have lost some of their luster during the summer, you can easily put it back with an electric waxer and polisher.  
 While you're on your thorough turn-out is a good time to wash up dishes used infrequently, your lamps' diffusing bowls, and your vases (in your dishwasher, if you have one). They'll then be ready for winter use.  
 While on your washing spree, you'll also check blankets and bedspreads. These—properly handled—come out of your automatic washer and dryer looking like new. So do your drapes and slipcovers. And you can actually do a cleanup job on your slipcovers and drapes in one day. With an electric dryer, they need little or no ironing and are ready for use within a few hours.  
 Since your object is time off from housework, you'll give some thought to the chores that come up regularly—daily meals, laundry, daily cleaning and dishwashing. There are many ways to save time on them and still do a good job.  
 You can shorten your three-meals-a-day task by planning oven meals—and letting your electric range cook them automatically. You can use your mixer and other electric housewares to whittle down meal preparation time. You can use frozen foods—either from your freezer or from your local market—for quick meals.  
 When you come to the laundry, you can dispense with washdays if you laundry equipment is automatic. It takes only a few minutes of your time to get your washes together and turn them over to your automatic washer and dryer. And you can eliminate much of your ironing by choosing fabrics that need very little or no ironing.  
 The vacuum cleaner is as adept at daily brush-ups as at a big cleaning. And your electric dishwasher keeps dishes sparkling clean while giving you at least an hour a day off from a tedious job.  
 The worksaving appliances mentioned here won't take over the running of your home, but they will lighten your work and give you more leisure. And they do a much better job of this when you put them on a regular schedule for your daily work.  
 Under the 1957 Soil Bank Acreage Reserve program, Tar Heel wheat farmers placed 67,700 acres, of 24 per cent of the state allotment in the reserve.  
 North Carolina egg production averages a little more than 15 dozen eggs per hen per year.

**MAKE 3 CALLS FOR THE PRICE OF 2 CALL STATION-TO-STATION**

Did you know that you can call clear across the country for just a few cents every hundred miles? Long distance station-to-station service is really economical. It lets you make three calls for the price of two. And if you call after 6 p.m. or all day Sunday you'll find that the low rates are even lower.
