The double ring ceremony was performed by the Rev. R. T. Routs Jr., and music was furnished by Mrs. Duke Whitley, organist and William Fox, who sang "Where Ere You Walk" and "The Lord's Prayer."

## Dave Garroway Finds It Impossible To Keep Secrets From His Wife

WOULD YOUR HUSBAND enjoy having you watch him at his work?

Chances are no, men being suspicious of women's motives about such things. But one man, who can't avoid it, finds it's not bad at all.

"My wife watches me at work every morning," declares TV broadcaster Dave Garroway, "and as a matter of fact she's my best critic. She comments on everything from my crooked necktie to the day's guest, and offers me very helpful advice."

Dave attributes many of his constructive programs suggestions to Pamela, his wife.

"After all," he says, "50 per cent of my viewers are supposed to be housewives, so we try to pace the program with that in mind. I try to ask questions of guests that appeal to the average listener. Missiles and mental health are just as interesting topics for women viewers as family topics, it would seem."

Dave was amazed not long ago when he offered the Rockefeller report, an involved treatise on the military aspects of international security, to his listeners. There were 211,000 orders from women.

"Most women want to know more about things that jeopardize their welfare, security and happiness, homes, children and husbands. My wife is a new mother and she has become more interested recently in world problems because she is concerned for our child's future."

Dave, who is 44, says one is never too old to begin a family, even if he'll be old enough to collect Social Security when the child is entering college.

"So what if you are 65 when your child is 20? Don't let that stand in the way of having a fam-

## Smart looking? You bet! And comfortable, too!

Sure, styling is important in a new car. You expect a new car to be sleek and smart - but not at the expense of comfort. Yet in trying to design a car as low and modern looking as the Swept-Wing Dodge, some '59 cars have practically designed out the people. Not Dodge. It's designed around you. It's easier to get into (no protruding door posts), easier to get out of (no high door sills to trip over), more comfortable sit in (there's room to spare). All this and Swivel Seats, too!
