Lime requirements of soil should be tested often.

Some fertilizers are "non-acid forming," but many are.

Mr. and Mrs. R. L. Long Hayesville, Rt. 3, a daughter, June Dare, March 28.

Superior Court Session To Start Monday

Cherokee County Superior Court will convene Monday morning at the courthouse.

Clerk of Court Jimmy Howse said there is a heavy docket scheduled for the session.

FARMING TIPS

Poultrymen, as well as other farmers, should constantly seek efficiency in their operations.

Minor elements are important in farming.

Applying lime should be a never-ending job for North Carolina farmers.

Use captan spray or dust to control gray mold rot in strawberries.

QUESTION: Does lime stay in the soil very long after liming?

ANSWER: That depends on the soil type. Generally, however, it is subject to the effects of nature like other plant nutrients. It is leached out of the soil by water; and the use of acid-forming fertilizers offset of lime in some cases. Applying lime on the basis of a soil test should be a never-ending job of Tar Heel farmers.

Mr. and Mrs. Arnold Beerkens are spending ten-days in Palm Beach, Fla.

CAKE SALE SET

The Rotary Club will sponsor a cake sale Saturday at 9:30 a.m. on the Square.

Proceeds from the sale will be turned over to the Crippled Children Society.

The sale will be conducted by the Murphy Woman's Club.

In selecting seed sweet potatoes use only those 1 1/2 inches in diameter or larger, dip in water to remove rust and dirt, examine carefully, discard light-colored roots, and nick to examine flesh, saving only those with salmon pink to orange flesh color.

Machinists & Welders

MACHINISTS with minimum of 3 Years Experience on all types Shop Equipment.

WELDERS with minimum of 3 years experience in all types welding. Aluminum experience preferred.

The above jobs are permanent jobs with paid vacations, paid holidays, free hospitalization, and life insurance. Qualified applicants should apply to the personnel office, DAY-TON RUBBER CO., Waynesville, North Carolina.
