er public support of the Post Office Department's campaign to wipe out this menace which profits on the corruption of minor children.

He said that Postmaster General Arthur E. Summerfield has advised that as many as one million children this year will receive such filthy material through the mails at their parents' home.

Mr. Ray emphasized that the child himself may be completely innocent of having requested such material. He pointed out that these "merchants of filth," who dump "pornographic sewage" into the hands of thousands of children every day, buy standard mailing lists, gather names from high school yearbooks, and even advertise bonafide toys such as model airplanes for sale, in order to garner names of youngsters to whom they can send their smut.

In a recent speech, Postmaster General Summerfield also warned, "These racketeers do not respect any social group, economic status or place of residence. They use every conceivable method to get children's names and addresses to make up their mailing lists."

"Persistent, intensive action on a nation-wide scale," he continued, "will be absolutely necessary for a long time to come to cope with the determined plans of the filth racketeers to expand their business."

Mr. Ray reported that civic groups throughout the nation are rising in support of the campaign. Since the Postmaster General "declared war" on this huge racket, more than 1,000 organizations have notified Mr. Summerfield of their active support and cooperation, Mr. Ray said.

He cited, as an example of what an organized community organization can do a typical resolution.

The public here in every community in our country can provide immeasurable aid in our four-fold program to wipe out this traffic, which Mr. Summerfield has de-

\$125 Million Spent By TVA For Materials

Of the total, \$66,924,517 was for manufactured articles (turbines, generators, transmission lines, etc.).

Of the total, \$66,924,517 was for manufactured articles (turbines, generators, transmission lines, etc.).

Coal purchases for steam accounted for about \$51.3 million, or 41 per cent of the total. The 1959 contract awards were approximately \$33.6 million less than in the previous year largely because of reduced coal purchases.

Ten per cent of the \$66.9 million spent for manufactured materials went to companies in the seven Tennessee Valley states; 63 per cent to companies in other states; and 27 per cent went for equipment and supplies manufactured abroad.

However, 88 per cent of the \$51.9 million spent for raw materials (all but about \$600,000 going for coal) went to companies within the seven valley states.

Of the amount spent for miscellaneous services, the Valley states received 89 per cent, and other states 11 per cent.

Largest amounts went to companies in these non-Tennessee Valley states: Ohio, \$13,332,776; Pennsylvania, \$11,737,164; Illinois, \$8,689,277; Massachusetts, \$3,355,476; New Jersey, \$1,573,365; Missouri, \$1,415,389; Michigan, \$1,241,921; and New York, \$1,203,188.

scribed as the most vile, insidious racket of our time, Mr. Ray said.

The objectives of this program are:

1. To draw maximum public attention to the menace of this racket;
2. To urge parents to help the Post Office Department to apprehend the mailers of filth to their children;
3. To help mobilize community support behind adequate law enforcement of local ordinances or state laws when these praveyors are apprehended and brought to court;
4. To rally public opinion behind new and stiffer legislation on obscenity.

"If all of us join hands in support of this program, the war against this vile racket can be won," he concluded.

Parents into whose homes obscene material is mailed can help most, Mr. Ray emphasized, by sending or taking the material, including the envelope in which it came, to their local postmaster.

QUESTION: What is the deadline for filing for federal gasoline tax refunds?

ANSWER: September 30, 1959. This is the last day to file for tax es paid on gasoline in the 12 months ending June 30, 1958. Tax gasoline had to be used for non-highway purposes, however.

Words of Life

THOMAS J. MURPHY, Pastor

Benjamin Franklin said: "From henceforth let no man trouble me: for I bear in my body the marks of the Lord Jesus." Gal. 6: 17

The Apostle Paul comes with his tender, personal appeal. Look at the marks on my body! This is proof of love and apostleship.

The word "marks" in the text come from the Greek word, stigmata. We get our word "stigma" from it. Stigma is a word of bad repute. But in the Greek Stigmata there is nothing of shame; and, if there had been, Jesus would have glorified it like he glorified the shameful Roman Cross.

Jesus glorified everything He touched. He died on the cross and glorified it by dying upon it, and made it the greatest attraction in heaven and on earth.

Stigmata means marks or brands. All true soldiers bear their marks with honor. Jesus indeed marks His sheep in the ears—My sheep hear my voice. They are marked in the feet—My Sheep follow Me. The marks we are thinking about are not flesh marks, but spiritual marks.

What are some of these marks? 1. Unhesitating, unquestioning obedience to the will of God. Hell is being populated by obedience. Jesus made obedience a test of love. If ye love me, keep my commandments. Living the Christian life is like riding a bicycle—go on or get off.

All but a minor amount of the \$17.9 million spent for purchases of foreign equipment and supplies went for generators and transformers. One generator for the Colbert Steam Plant accounted for \$12 million of the total. Some of the minor items of foreign manufacture were purchased through domestic suppliers. The \$17.9 million total compares with \$5.6 million of such purchases made for all previous years since 1933.

About 20 cents of each dollar spent by consumers for farm-produced foods is used to purchase dairy foods.

Venetian Blinds Solve Storage Problem

THIS DELIGHTFUL child's room features an unusual Venetian blind treatment of storage areas. In a small room which had no closets, an arrangement was devised with shelves and clothes poles and Venetians as doors. One set of Venetians are of alternating slats of red, white and pink; the other—a pattern of gold leaves sprinkled on a white slat. These Venetian "doors" are highly decorative as well as functional.
