NOTICE OF RE-SALE OF REAL ESTATE
NORTH CAROLINA
CHEROKEE COUNTY

Under and by virtue of an order of the Superior Court of Cherokee County, made in a civil action therein pending entitled Cherokee County, A Municipal Corporation, vs. Robert Hickey and wife, Ethel Hickey, et als., and signed by the Clerk of the Superior Court on July 13, 1959, and under and by virtue of an Order of Re-sale upon an advance bid made by the Clerk of the Superior Court on August 26, 1959, the undersigned Commissioner will on the 11th day of September, 1959, at twelve o'clock noon, at the door of the Courthouse in Murphy, North Carolina, offer for sale to the highest bidder for cash upon an opening bid of \$737.00, but subject to the confirmation of the Court, a certain tract or parcel of land lying and being in Murphy Township, Cherokee County, North Carolina, and more particularly described as follows:

A certain tract or parcel of land, in Cherokee County, State of North Carolina, adjoining the lands of George Palmer, M. N. Hembree, and others, and bounded as follows, viz:

Being Lot No. 5 in the Duke Land and Improvement Company as shown on the Plat Book, No 1 at page 13, and containing 24 acres it being the same lot on which the said Fate King and Corda King did live.

Being the same lands as described in and conveyed by a Deed, dated February 17, 1925, from S. W. Lovingood to Fate King and Corda King and registered in the Office of the Register of Deeds of Cherokee County, North Carolina, in Deed Book at page 487, reference to which is hereby made for greater certainty of description.

SAVING AND EXCEPTING HOWEVER, from the land above described those parts thereto which were heretofore conveyed as follows:

(1) Excepting that part thereof which was heretofore conveyed by

Cordia King, widow, to Alvin Clay, containing 2.92 acres, more or less, by deed, dated August 24, 1944, and recorded in Book No. 151 on page 154, in the Office of the Register of Deeds of Cherokee County, North Carolina, reference to which is hereby made for greater certainty of description.

(2) Excepting that part thereof which was heretofore conveyed by Cordia King, widow, to Windle Swanson, containing 3 acres, more or less, by Deed, dated June 9, 1945, and recorded in Book No. 154 on page 224, in the Office of the Register of Deeds of Cherokee County, North Carolina, reference to which is hereby made for greater certainty of description.

(3) Excepting that part thereof of which was heretofore conveyed by Cordia King to Willis Bradshaw and wife, Hattie Bradshaw, by Deed, dated March 14, 1946, conveying 1.27 acres, more or less, and registered in Book No. 157 on page 133 in the Office of the Register of Deeds of Cherokee County, North Carolina, reference to which is hereby made for greater certainty of description.

(4) Excepting that part thereof which was heretofore conveyed by Cordia King and husband, Fate King, to Truman Cole, by deed, dated February 1, 1947, conveying 9/10 acres, more or less, and recorded in Book No. 171 on page 83, in the Office of the Register of Deeds of Cherokee County, North Carolina, reference to which is hereby made for greater certainty of description.

(5) Excepting that part thereof which was heretofore conveyed by Cordia King, widow of Fate King, to Tom Russ and wife, Lenoir Russ, by Deed, dated June 7, 1951, conveying 2 acres, more or less, and recorded in Book No. 182 on page 129, in the Office of the Register of Deeds of Cherokee County, reference to which is hereby made for greater certainty of description.

(6) Excepting that part thereof which was heretofore conveyed by Cordia King, widow, to Hubert Graves and wife, Zenlee Graves, by Deed, dated June 4, 1955, conveying one acre, more or less, and recorded in Book No. 198 on page 259, in the Office of the Register of Deeds of Cherokee County, North Carolina, reference to which is hereby made for greater certainty of description.

(7) Excepting that part thereof which was heretofore conveyed by Cordia King, widow, to Hubert Graves and wife, Zenlee Graves, by Deed, dated March 15, 1955, containing one acre, more or less, and recorded in Book No. 198 on page 259, in the Office of the Register of Deeds of Cherokee County, North Carolina, reference to which is hereby made for greater certainty of description.

(8) Excepting an easement or right-of-way for an electric power line which was heretofore conveyed by Kate Pamer, et als, to the Town of Murphy, North Carolina, by Deed dated March 15, 1956, and recorded in Book No. 201 on page 155, in the Office of the Register of Deeds of Cherokee County, North Carolina, reference to which is hereby made for greater certainty of description.

Tris the 26th day of August, 1959.

L. L. MASON JR.
Commissioner

CHEROKEE COUNTY

Under and by virtue of the power of sale contained in a certain deed of trust executed by JAMES H. MARTIN and wife, GLADA F. MARTIN, dated the 23rd day of August, 1957 and recorded in Book

204, page 260, in the office of the Register of Deeds of Cherokee County, North Carolina, default having been made in the payment of the indebtedness thereby secured and the said deed of trust being by the terms thereof subject to foreclosure the undersigned Trustee will offer for sale at public auction to the highest bidder for cash at the Court House door in Murphy, North Carolina, at 12:00 noon on the 1st day of October, 1959, the property conveyed in said deed of trust, the same lying and being in the County of Cherokee, State of North Carolina, and more particularly described as follows:

A certain tract or parcel of land in Cherokee County, North Carolina, adjoining the lands of A. M. Crowder, Callie Hughes, Robert Hughes and others, and bounded as follows, viz:

BEGINNING at the mouth of a ditch and running with ditch easterly direction to a poplar tree corner to Callie Hughes' land; thence North in straight line to a small white oak bush on the East side of the Creek; thence West with the creek to the Beginning corner, containing one-half acre, more or less, with 4 room house on same.

Being the same lands as conveyed from R. H. King to Earnest Hughes and wife, Mae Hughes, by deed dated October 17, 1952 and recorded in the Office of the Register of Deeds Cherokee County, North Carolina in Book 180, page 153, reference to which is made for more complete description.

Being also the same lands described in the deed dated February 15, 1954 from Earnest Hughes and wife Mae Hughes, to Robert Thom as Davenport, and wife, Nadean Hughes Davenport, which deed is recorded in Deed Book 193, at page 123, Records of Cherokee County reference to which is hereby made.

Being also the same lands described in the deed dated December 19th, 1956 from Jessie G. Loudermilk and wife Alma Loudermilk, of Cherokee County to Peyton G. Ivie, which deed is recorded in Deed Book 208 at page 7, Records of Cherokee County, reference to which is hereby made.

But this sale will be made subject to all outstanding and unpaid taxes.

This 1st day of September, 1959.

F. O. CHRISTOPHER
Trustee

Register of Deeds of Cherokee County, North Carolina, default having been made in the payment of the indebtedness thereby secured and the said deed of trust being by the terms thereof subject to foreclosure the undersigned Trustee will offer for sale at public auction to the highest bidder for cash at the Court House door in Murphy, North Carolina, at 12:00 noon on the 1st day of October, 1959, the property conveyed in said deed of trust, the same lying and being in the County of Cherokee, State of North Carolina, and more particularly described as follows:

A certain tract or parcel of land in Cherokee County, North Carolina, adjoining the lands of A. M. Crowder, Callie Hughes, Robert Hughes and others, and bounded as follows, viz:

Soil Conservation

NEWS
By
JOHN
SMITH

Judging from the looks of the corn I have seen lately, it won't be long until harvesting the largest corn crop in the history of the United States will begin. Conditions have been very favorable all over the States for a bumper crop. The Department of Agriculture has predicted that this year's crop will be four and two tenths billion bushels, four hundred million bushels more than the largest previous crop.

Many things have contributed to the huge corn crops that seem to get progressively larger each year in spite of the fact that the total acreage planted to corn has generally decreased each year.

Twenty five years ago, every farmer planted an open-pollinated variety of corn. Some varieties having been maintained on the same farm for fifty years or more. Rows were four to five feet apart and the corn was planted from eighteen inches to two feet apart of the row. He had to pull his plow at the rate of 150 to 200 pounds per acre, usually 3-4-6 analysis. The farmer plowed his corn from the time it came up until it was ready to tassel. When he reached the end of the row, he had to pull his plow up and clean the corn roots off the point before he started down another row. That afternoon when the corn wilted down he wondered what made it wilt.

At harvest time he considered himself lucky if he got from twenty five to thirty bushels of grain per acre. After harvest was completed he cut the corn stalks and raked them into piles where they were turned, so there wouldn't be any trash on the ground when he was ready to plant corn in the same field the following spring.

Today, practically all the corn planted in the United States is one of many hybrid varieties. The rows are three feet to three and a half feet apart, and the hills are from nine inches to fifteen inches in the row. Many farmers cultivate their crop only once or twice and then only deep enough to kill grass and weeds. It is a rare sight indeed to see corn wilting because its feeder roots have been cut out by deep

GARDEN TIME

This is about the seasons. Of the four, spring and fall; probably have the greatest appeal to most people. In the spring we have fragrance of the apple blossom; and in the fall, there's a bounteous harvest of luscious fruit (if you have controlled the pests).

As the fall of the year approaches, we should think about the many ways to be held within easy driving distance of most of us, and prepare our entries. Don't put it off. Get a catalog and carefully follow instructions.

Quality and condition of fruits, vegetables and flowers are of paramount importance if you want to make your fair stand out and give the judges a hard time.

Condition of the products exhibited is usually given the greatest weight in the judging score card. Causes by insects and diseases, bruises or growth cracks, whether they be open or healed. Scab on

plowing Fertilizer is applied at a rate of from 400 to 700 pounds per acre at planting time and side dressing of 300 pounds of ammonium nitrate per acre is not uncommon.

At harvest time, it is not rare at all for yields of better than one hundred bushels per acre to be racked up.

Hybrid varieties, better fertilizer practices, and better cultural practices, and better cultural practices, but they are not the whole story. An important factor in the increased yields is the soil itself and the improved way in which it is treated. You, fortunately, see very few farmers raking corn stalks to burn them. Instead, the stalks and other crop residue are disked into the soil to increase the organic matter content and water holding capacity of the soil. Practically all successful farmers plant cover crops of crimson clover, or mixed small grain on their corn fields. This cover crop is disked in three to six weeks before corn planting time in the spring. Crop rotations and contour strip cropping of sloping fields hold the rain water that falls, and also help to protect the soil from erosion.

The modern farmer has the opportunity to make much higher crop yields than his father and grandfather did before him, but he has to take advantage of all the good practices that were unknown fifty years ago if he is to do better farming than his forebears.

THE CHEROKEE SCOUT

THURSDAY, SEPTEMBER 10 1959

apples, scurf, or cracks on the potatoes, leaf spot, and damaged petals on roses, etc.

Uniformity of the entry is also important regardless of whether the products are displayed in trays, baskets or plates. This is particularly true for apples, pears, Irish and sweet potatoes, tomatoes, peppers, onions, etc. Try to select so that all specimens will be as near the same size as possible.

Within a variety, select for medium size rather than extremely large or small—Irish potatoes about eight ounces, sweet potatoes about six or seven inches long and 2½ to three inches in diameter. Tails may give you the general idea.

Carefully select and condition your cut flower specimens. Avoid damage to petals of such flowers as roses, chrysanthemums and daisies by careful handling and protection from wind and car draft. If you are entering potted plants, select your best ones. If arrangements, use suitable containers and watch your lines and color blending.

Feeding the New Baby

Every mother is bound to have many questions regarding her baby's development and behavior. Eating and sleeping are the most important factors in a tiny baby's life, and as a general rule, if the baby is happy and contented with his food, he will sleep properly.

"How" and "what" the baby will eat is a decision your doctor will make. If a formula is chosen, it will most likely be a mixture of milk, water and a form of carbohydrate. Karo Syrup has been a preferred carbohydrate used successfully for years in infant formulas. Red label Karo (light corn syrup) and Blue label Karo (dark corn syrup), both used in infant feeding, are recommended by doctors for several reasons. It is practically 100% carbohydrate, and because of its composition, is very easily digested. Karo syrup does not accustom the baby to an excessively sweet taste and is easily measured and mixed with the other formula ingredients. You'll find it readily available in grocery stores... so easy to pick up while doing your other shopping, and so inexpensive, too.

Today...10 P.M. THE NEW-SIZE FORD STARTS ON ITS WAY TO YOU!

The Falcon, the New-Size Ford, already is the most thoroughly tested and proven new car in history. Today this new Ford Falcon starts EXPERIENCE RUN, U.S.A., over every mile of numbered U.S. highway

This is not a test run in the ordinary sense of the word. For in its 3 years of development and over 3 million miles of proving, the Falcon has already passed and repassed every kind of test that could be devised.

It's been dust-tested, heat-tested, and endurance-tested on the test track at Kingman, Arizona. Wind-tested and rain-tested in the 300 mph wind tunnel at the University of Maryland. Shock-tested, curve-tested, brake-tested, noise-

A Final Demonstration Climaxing Ford's 3 Years and 3 million Miles of Research and Development on the New Ford Falcon... EXPERIENCE RUN, U.S.A.

A fleet of Falcons is going to undergo a final exhausting test... over every single mile of numbered U.S. Federal Highway... along a circuitous route that will include the ups and downs of two major mountain ranges, the challenges of every type of roadway and thruway, main street and boulevard.

On October 8, the Newsize Ford will be at your Ford Dealer's... for you to experience. See your Ford Dealer today for more information on the Ford Falcon.
