**Toughest Driver in Town!**

Careful Percy McFidget—who would believe that he's harder on his car than anybody in town? Why, he never goes over 35 or takes a trip over 10 miles! Actually this kind of driving is very hard on a car engine because the engine seldom gets "warmed up" sufficiently. The oil tends to be sluggish. Sludge forms in the crankcase. The way is open for dangerous wear and corrosion.

But there's something you can do about this, to protect your motor. If you have to do a lot of start-and-stop driving at low speeds, as most of us do, use Trop-Artic Motor Oil. It flows fast... resists sludge formation... helps your car run better, longer. Get Trop-Artic Motor Oil at any station where you see the Phillips 66 Shield.

All of this money is out in the farmers' hands except \$5,500 This money is available to farmers that wish to carry out conservation practices this fall. Every farmer in the county who thinks he could carry out some practice in conservation should make their request at the earliest date possible so says L. L. The Government is offering assistance of more than 50 per cent of the cost in carrying out conservation practice.
