GARDEN TIME

My camellia (Japonica) plants are turning yellow and losing leaves. What can I do?

There are three possible suggestions that may be made to correct this trouble. First, soil drainage.

Camellias do not like "wet feet." Secondly, the plants may have been set too deep in the soil. This is a common error. When plants are purchased from your nurseryman or favorite garden supply center, they are always "balled and burlapped."

Dig a hole larger than the ball, and set the plants so that the top of the ball is even with the soil level. Fill the hole with equal volumes of peat and good soil, firm, and mulch with pine needles.

Flower Show Presented By Elementary Students

Fifth Grade students of Mrs. L. W. Hendrix presented a flower show on Oct. 7-8 in their school room at the Murphy Elementary School.

The class had been studying science and looking to see how many blooming plants they could find. As each pupil contributed what was found, they started keeping an individual list of all the different flowers, tame and wild. This list grew to more than 100 flowers.

Class members gave a short report on the flowers. Some of the flowers that were collected included: wild asters, princess feather, cocks comb, bachelor buttons, canes, dahlias, gentlemen's walking stick, ladies thumb, zinnia, roses, hydrangea, goldenrod, life everlasting, iron weed and butter and eggs.

Guests included Mrs. Dreher's fourth grade, Miss Kate Hayes' fifth grade and Mrs. Brandon's fifth and sixth grades.

Pupils participating were: Lawrence, Roger and Roy Baker, R. L. Bowers, Jimmy Brown, John Cavender, Ellen Carroll, Janice Dockery, Elaine Frankum, Doyle Haged, Lynn Johnson, Samuel Johnson, Lawrence Kelly, Mike and Steve Killian, Butch Ledford, Clay Mann, Judy Palmer, Wanda Phillips, Randy Reese, Harold Smith, Linda Stratton, Jeraldine Sutton, Bill and Kenneth Swanson, Donny Taylor, Billy Joe Totherow, Raymond Tranham, Brenda Ware, and Willard Whitener.

Free Wheeling

By BILL CROWELL
Tar Heel drivers are becoming increasingly aware that the State's point system is methodically chastening bad drivers as surely as bad drivers continue to threaten others.

General, according to the State Department of Motor Vehicles, are at the threshold of license suspension. Despite the fact the point system has been operative only since June.

come characterized by the slogan "Operation 4-7-12" is North Carolina's answer to the habitual traffic violator. It's based on the easy-to-understand promise that it's far better to reach the dangerous driver and stop accidents before they happen. And the emphasis is on before.

The point system is not persecution. During a lifetime, a majority of North Carolina drivers will

be as little concern with points as they were, with OPA regulations during the war.

If he continues his irresponsible ways, it's goodbye driver license at 12 points.

Forfeiture of one's driving privileges—even for 60 days—is strong medicine.

Boyce V. Stiles Appointed Farm Census Leader

Appointment of Boyce Victor Stiles as a crew leader for the 1959 Census of Agriculture was announced by Field Director Joseph R. Norwood of the Census Bureau's regional office at Charlotte. Mr. Stiles will direct a force of census takers who will canvass all farms in Cherokee, Clay and Graham Counties. Before assuming his post, he will go to Morganton where he will receive five days of training by a member of the Census Bureau's staff. Topics to be covered include procedures for recruiting of census takers, census taker training, canvassing methods, preparation and submission of reports, and the supervision of census takers to insure a complete and accurate count.

After completing his training, Mr. Stiles will return to his district where he will spend several weeks recruiting census takers, and training them in preparation for the start of the field canvass on Nov. 18th.
