Words of Life

By HAL FINNEY
Pastor of the Murphy Methodist Church

Common people a voice in the government of his nation, a nation in which he is important.

We need to thank God for our opportunities. Thank God, not for what America has been, not even for what it is, but thank God for America can be and can do. Every man, woman, boy and girl in our mountains is a voice to be heard. The mob psychology of mass movements is not here; nor is the pure ideal of freedom distorted. We give ourselves, our boys, our means to keep our nation free. We want a nation under God's love and judgment.

The church's in our mountain area are a symbol of a loyalty to God above all else. They stand for Christ as the Saviour of the world in redeeming his people. It is here we go to express our allegiance to the Lord of our lives. It is here we ascribe praise to His name. It is in the church we publicly announce our faith, and testify that in Christ we have found our greatest hope. Never sell your mountain country short because it is here we have the finest example of moral, spiritual, and family life in this world. I am glad to say that on this Thanksgiving Day, I am here, and you are here, to say together that God is our Lord, and in his sight all of us are alike, rich and poor, and that we have in need, the most to be thankful for this day.

God of our fathers, whose almighty hand leads forth in beauty all the starry band Of shining worlds, in splendor thru the skies, Our grateful songs before thy throne arise.

—God of our Fathers

The United States Air Force Academy keeps an appropriate mascot—the falcon—at its new headquarters near Colorado Springs, Colorado. Daily there are half a dozen of the handsome birds on hand, ready to demonstrate their soaring and swooping skills. Falcon, spelled with capital F, means an Air Force Academy cadet.

Bladder Irritation Wake You Up?

MAKE THIS 4-DAY TEST. Take BURETS, a green tablet that combines extract buchu and 7 other medicines. Flush sluggish bladder. Drink lots of soft water. Your back at any drug store if not kidneys. Increase daytime elimination completely pleased. TODAY at (dealer's name)

Deaths

MRS. MARGARET EMMA STYLES
Mrs. Margaret Emma Witt Styles, 81, died at her home in Blue Ridge Tuesday, Nov. 17, at 11 a.m.

Mrs. Styles had lived in Blue Ridge for many years and was the daughter of the late Rufus and Clara Sorrells Witt. She was a member of the Blue Ridge Methodist Church and Blue Ridge Garden Club and was active as long as health permitted.

Survivors include her husband, Luther A. Styles; two sons, Ralph of Blue Ridge and Roy of Chattanooga; two daughters, Mrs. Joe Adams and Miss Alberta Styles of Blue Ridge, three children and four great grandchildren. Funeral services were held Thursday at 10 a.m. in the Blue Ridge Methodist Church. The Rev. R. E. Bridges officiated. The Rev. J. P. Culpepper and the Rev. Don Wike assisted.

Funeral services were held Tuesday at 11 p.m. in a long illness. She was a native of Cherokee County.

MRS. RHEA SMITH
Mrs. Rhea Smith, 76, of Culberson RFD-1 died in a Young Harris, Ga., hospital at 4 a.m. Monday after a long illness.

Surviving are a daughter, Mrs. John Beavers of Culberson RFD 1; a son, William Smith of Rossville, Ga.; three sisters, Mrs. Vandora Taylor and Mrs. Mary Beavers of Violet, and Mrs. Cule Tanner of Marble; 18 grandchildren; and seven great-grandchildren.

Services were held Wednesday at 10 a.m. in Violet Baptist Church. The Rev. Willard Graham officiated and burial was in New Prospect Cemetery.

MRS. LEE KITCHENS
Lee Kitchens, 75, of Andrews RFD 1 died at his home Sunday at 11 p.m. after a long illness. He was born in Swain County and had lived in Tennessee and in Kings Mountain.

Surviving are the widow, Mrs. Callie Harmony Kitchens; the mother, Mrs. Satina Kitchens of Landis; a son, Fred of Belmont; two daughters, Mrs. Maggie Stiles of Andrews RFD 1, and Mrs. Louie Thomason of Liburn, Ga.; 12 grandchildren.

MRS. GARNETT OWENBY
Garnett Owenby, 44, died late Tuesday afternoon in an Andrews hospital following a heart attack. He had been associated with the Tennessee Valley Authority and was a member of the new Martin's Creek Baptist Church. He was a 32nd Degree Mason and a past master of Cherokee Masonic Lodge of Murphy. He was a son of Lee Owenby of Ellijay, Ga., and Mrs. Parthenia Owenby of Murphy RFD 2.

Surviving in addition to the parents are the widow, Mrs. Gussie Bates Owenby; and a son, Staff Sgt. Jerry Dean Owenby, in the Air Force in San Antonio, Texas. Townson Funeral Home is in charge of the arrangements.

Thanksgiving Dinner Held By Progressive Club
The Progressive Club held a Thanksgiving Dinner Wednesday, Nov. 18, at the Texana School. The dinner table was over laid with a white cloth. Green and yellow napkins and white candles were used. The table was centered with an arrangement of chrysanthemums. Wooden tray with nuts, pumpkin, basket of fruit and Indian corn was also used. Approximately 60 guests attended.

Entertain Guests Over Weekend
Mr. and Mrs. Harold M. Hall entertained Mr. and Mrs. John L. Head Jr. of Cocoa, Fla., over the weekend. Mr. and Mrs. Head were recently married in Cocoa and are on their way to Fort Bragg where they will make their home. Mr. Head is formerly of Andrews.

THIS SCULPTURED EARTH

By John A. Shimer

What caused the Grand Canyon? With its dinosaurs roam the plains of America? How did the North Carolina beaches come into being? Long before human life existed on our continent great forces of nature were at work forming the face of the United States.

Glaciers in New England! American geologists found this hard to believe when two Europeans suggested this explanation of the rugged Maine coast and the piles of rocks atop Mount Washington in New Hampshire. A glacier moves slowly; from a fraction of an inch to about ten feet per day. In its wake it leaves mountains, ravines and valleys where there had previously been a plain.

Volcanoes in the West! Not since 1915 has there been really noticeable volcanic activity but the evidence is there in the form of a lava coating thousands of feet thick. The formation was made over a period of more than fifty million years. If you have visited the craters of the Moon National Monument in Idaho, the Giant's Causeway in Northern Ireland or the Palisades on the west bank of the Hudson River at New York City, you have seen the results of volcanic activity.

Natural Bridge in Virginia and Old Faithful in Yellowstone National Park formed by the same agent! Never! Yes, indeed, underground water in limestone performed the wonders as well as carving out Carlsbad Caverns in New Mexico all to the amazement and interest of hundreds of thousands of American tourists.

So here is This Sculptured Earth written for the curious and questioning layman with excellent photographs and untechnical vocabulary.

THE ART OF LLEWELLYN JONES

By Paul Hyde Bonner

Fed to the teeth with his very proper life and his very rich wife, Edith, a member of the diplomatic corps disappeared without a trace. F. Townsend Britton had laid his plans well. His new clothes, name, bank account and accent were no accident. Every possible contingency had been anticipated. Finally settling in a small southern town, Townsend, now Llewellyn Jones, made friends who never suspected

that he was a man with a past. In his new home Llewellyn also found a career in art. With patience he cultivated this heretofore unsuspected talent. As his knowledge and ability increased, he became more confident that his identity would never be discovered. A chance meeting with his beautiful daughter confirmed this conviction when she failed to recognize him. With a little finagling Llewellyn Jones procured a passport and moved to France to continue his study of art. In acquiring a house in which to live and paint, Mr. Jones also acquired an excellent cook, model and eventually a mistress in the person of a young French woman.

Complications began when a young American girl whom Llewellyn had met soon after assuming

Savings Bonds Sales Climb With New Interest Rate

Cherokee County savings bonds sales for October were \$13,743.30 making the total sales for the year \$458,875.25.

The people of North Carolina responded to the higher interest rate of 3 1/2 per cent now being paid on Savings Bonds by increasing their purchases. During October, statewide sales of Savings Bonds, Series E and Series H combined, were up 6.3 per cent over sales of last October.

The Series H bonds showed the strongest increase, with sales being 23.6 per cent greater than they were in the same month of a year ago. Series E bonds were up 4.8 per cent.

Cumulative sales for the year amounted to \$38,750,055.00. This is 76 per cent of North Carolina's 1959 goal of \$51,000,000.

Six counties have already achieved their sales quota for 1959. They are Dare, Henderson, Hoke, Macon, Pamlico and Swain.

Mrs. G. W. Pullium Is Honored With Shower

ANDREWS — Mrs. George W. Pullium, a recent bride, was honored with a miscellaneous shower Saturday night in the parlor of the First Baptist Church.

Hostesses were Mrs. Tom Carpenter, Mrs. J. V. Brooks, former classmate of the bride, Mrs. James Harris and Mrs. Glenn McGuire.

A yellow and white motif was used. The bride's table was centered with an arrangement of miniature yellow chrysanthemums flanked by tall yellow tapers in brass candelabra.

Assisting in serving were Miss Martin Derberbery, sister of the bride, Miss Mary Ann Pullium, sister of the bridegroom, Mrs. Vernon McGuire and Mrs. Richard Conley.

his disguise arrived in Paris and sought to continue their friendship. She approved of the cook and the model but resented his having taken a mistress.

With an acceleration of pace, a Parisian art dealer decided to have an exhibit of Llewellyn's paintings, several canvases were bought by an American art museum and Edith Townsend arrived in Paris. A meeting between Edith and Jones was inevitable, could not be avoided. Would his long undetected disguise be adequate for this test of it? Would it shield him from the vindictiveness of this woman he had deserted? Only the meeting with Edith would answer these questions.

This is sophisticated fast paced reading. Recommended for a cold, rainy day before an open fire.

These titles are available at the Murphy Carnegie Library. If they are not in when you call for them, Mrs. Highway will put you on the reserve list.

Rules For Safe Winter Driving Are Announced

Six hot tips for cold weather driving were offered by the State Department of Motor Vehicles, Commissioner Edward Scheidt.

Based on scientific research by the National Safety Council, Scheidt said the following could be considered cardinal rules for safe winter driving:

- 1. You are the key to your own safety. Driving conditions are definitely less favorable in winter. It's up to you to winterize your car, winterize your driving techniques and determine to do your best to avoid accidents.
2. Rely on good tires and tire chains. Have good tires. You may prefer snow tires for winter, but you still should carry reinforced tire chains for the more severe conditions which can and will develop from time to time. Even with the help of snow tires, or the much greater help of chains, you should reduce speed on snow and ice.
3. Keep windshield and windows clear. Be sure your wiper blades are in good condition, and that wiper arms have adequate pressure to sweep snow and sleet off rather than slide over it. See that heater and defroster are working efficiently. Clear snow and ice from the windshield and all windows of your car before venturing onto the highway. Ventilate, to keep windows from fogging.
4. Get the "feel" of the road. In order to avoid unintentional sliding or spinning of your wheels, try the brakes or press the accelerator gently while driving slowly and as traffic and highway conditions permit. This will show you how slippery the pavement is. Then adjust your speed to a comfortable, safe rate governed by existing conditions.
5. Follow at a safe distance. Keep a good margin between your car and the vehicle ahead. It takes chainless cars from three to 12 times more distance to stop on snow or ice than it does on dry pavement. Following too closely is doubly dangerous on winter roads.
6. Pump your brakes. A pumping action permits you to maintain better steering control on ice or slippery snow. A fast application and release of brakes—one or two times a second—will give you short intervals of maximum braking effort separated by short intervals of controlled steering while wheels are rolling.
7. There's nothing much you can do about winter weather—except to be prepared for it. Commissioner Scheidt said. "But nothing protects a driver as much as being prepared for the added hazards of winter driving."
8. The veiled Tuaregs of the Sahara never bathe. Wind-driven sand scours their bodies.

Here's Exciting News For Home-Minded People!

If you have a mind for a home of your own, the News is that you can buy or build it years sooner than you may have thought possible. We'll work out a low-cost financing plan, geared to your circumstances and income that will smooth the way to proud home ownership for you!
