3 big extras when you install electric heat in your home!
Murphy Electric Power Board
EXTRA Convenience. Electric heat is completely automatic. Thermostatic controls maintain just the temperature you want with the mere setting of a dial. There's no fuel storage, no waste products to clean up, no fall preparation. And electric heat is as clean as your electric lights.
EXTRA Comfort. Automatic controls let you maintain different temperatures in separate rooms. Overheating on mild days is completely eliminated. And electric heat gives natural humidity, air is not dried out.
EXTRA Economy. Installation cost is low. Maintenance is virtually nonexistent. Operating cost is amazingly low because electric rates here are among the nation's lowest. And operating cost will remain low because electric rates haven't increased in 25 years. What about the cost of your present heating fuel? Isn't the price higher than it was 10 years ago? Install electric heat in your home. Call us for free help in planning your electric heating system and an estimate of your heating costs.
