

LEGAL NOTICE

NORTH CAROLINA CHEROKEE COUNTY
 The undersigned, having qualified as administrator of the estate of Paul C. Hyatt, deceased, late of Cherokee County, this is to notify all persons having claims against said estate to present them to the undersigned, at Murphy, North Carolina, on or before the 25th day of February, 1961, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment to the undersigned, at Murphy, North Carolina.
 This the 19th day of February, 1960.

Charles H. Hyatt
 Administrator
 Murphy, N. C.

NORTH CAROLINA CHEROKEE COUNTY

Under and by the virtue of the power of sale contained in a certain deed of trust, executed by Carroll Ash and his wife, Frances Ash, dated the 5th day of November 1958, and recorded in Book 179 at page 810, in the Office of the Register of Deeds of Cherokee County, North Carolina, default having been made in the payment of the indebtedness thereby secured and said deed of trust being by the terms thereof subject to foreclosure, the undersigned Trustee will offer for sale at public auction to the highest bidder for cash at the courthouse door in Murphy, North Carolina, at 10:00 a. m. on the 16th day of April, 1960, the property conveyed in said deed of trust, the same lying and being in

the County of Cherokee and State of North Carolina, and more particularly described as follows:
 Being a part of Tract No. 101 in District No. 3 and being a part of the lands described in a deed from Troy B. Murrin and wife, Alline Murrin, to Porter Oliver, dated March 25, 1950, and recorded in the office of the Register of Deeds for Cherokee County, North Carolina, in Book No. 173 at Page 124, reference to which is made for additional description.

BEGINNING on a Rock, beginning corner in deed above referred to, and runs with its first line North 5 West approximately 485 feet to a Spanish Oak in the J. M. Ash line, marked as a corner; thence South 85 West with second call of aforesaid deed 60 feet to an iron post; thence South 5 East approximately 478 feet to a stake in South line of aforesaid deed; thence North 80 East 60 feet to the BEGINNING.

This the 26th day of February, 1960.
 Mary Dockery
 Route 3 Box 45
 Murphy, N. C.

ADMINISTRATRIX NOTICE NORTH CAROLINA CHEROKEE COUNTY
 The undersigned, having qualified as Administratrix of the estate of Jimmy C. Painter, deceased, late of Cherokee County, this is to notify all persons having claims against said estate to present them to the undersigned, at Andrews, North Carolina on or before the 17th day of March 1961 or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment to the undersigned at Andrews, North Carolina. This 14 day of March 1960.
 Mrs. May Painter
 Andrews, N. C.
 33-6tc

NOTICE OF RESALE NORTH CAROLINA CHEROKEE COUNTY
 Under and by virtue of a Judgment of the Superior Court of Cherokee County, made in a civil action therein pending entitled "Cherokee County A Municipal Corporation, Plaintiff, vs. John Arthur Swanson and wife, Essie Swanson, et als, Defendants," and signed by the Clerk of the Superior Court of Cherokee County on January 2, 1960; and under and by virtue of an Order of Resale upon an advance bid made by the Clerk of

Soil Conservation News

by John Smith
 The time of year has come when all of you who own farm ponds should start thinking about the fertilization program for your pond for the spring and summer. As soon as the weather warms up, and I'm sure all of you hope that is soon, your pond should be given an application of 8-8-2 fertilizer at the rate of about 100 pounds per acre. This same application should be repeated as often as necessary throughout the spring, summer and up into the fall. It is not possible to say exactly how much fertilizer it will take to keep your pond in good condition for fish growing because the conditions vary from pond to pond. Some ponds get more natural fertilizer from woodland, pasture or field than other ponds get.
 It will cost you ten minutes time and no cash outlay to make yourself a gauge to check the condition of the pond, and when it needs fertilizing. A thousand dollar gauge would do no better job. All the materials you need are a three to four foot section of an old mop handle, hoe handle, or a one inch-square edging strip from the nearest saw mill, and two top of a can of pinto beans or Campbell's soup. Nail the can top at one end of the stick you have chosen for a handle, and mark the handle at twelve inches and eighteen inches above the can top. Submerge the can top in the water of your pond and see how deep in the water you can still see the can top. If the top disappears from view at a depth of twelve inches or less, your pond does not need any fertilizer. If the top is still visible at eighteen inches or more, the pond is in need of an application of fertilizer. You should check the pond only when the water is not muddy.
 Although we often speak of fertilizing the fish, they get no direct benefit from the application. Their physical set-up does not allow them to use the fertilizer for food. The nitrogen, phosphate and potash in the fertilizer stimulate the growth of tiny, microscopic plants which live in the water of your pond. These plants furnish food for millions of insect larvae of many different kinds, and small worms which furnish food for the bream which you have placed in the pond. The more larvae and worms there are present in the water for the bream to eat, the more they eat, and the faster they grow. When they get plenty to eat, the bream spawn often, with thousands of bream fingerlings resulting. These bream fingerlings are eaten in large quantities by the bass which you also have placed in your pond. When the bass have plenty of bream fingerlings to eat, they also grow very rapidly.
 A few sacks of comparatively inexpensive fertilizer can be turned into not only food for the family table, but also into hours of pleasure and entertainment for the kids

the Superior Court, the undersigned Commissioner will on Thursday, April 14, 1960, at twelve o'clock, noon, at the door of the Court-house in Murphy, Cherokee County, North Carolina, offer for sale to the highest bidder for cash upon an opening bid of \$1,940.00, subject to the confirmation of the Court, the following described real estate in Cherokee County:
 A certain tract or parcel of land in Cherokee County, State of North Carolina, adjoining the lands of J. R. Pack and O. L. Torrence, and others and described as follows:
 In District No. 8, Shoal Creek Township, Cherokee County, North Carolina, BEGINNING on the South corner on a Black Oak, then runs a North direction a conditional line to a rock corner, to J. R. Pack's line, and O. L. Torrence line to a Spanish Oak corner, in the A. A. Postell line to a rock corner in the S. W. Simmons line; then Southeast with Simmons to a rock corner on top of the ridge, John Ledford's line; then a Southeast course with the said line to a black oak, the Beginning corner, containing thirty (30) acres, more or less.
 Being the same land described in a certain tract or parcel of land September 10, 1951, from John A. Swanson and wife, Essie Swanson, to Mary Swanson (being the same person as Rockie Mason Swanson) and registered in the Office of the Register of Deeds of Cherokee County, North Carolina, in Deed Book 182 at page 204, reference to which Deed is hereby made for greater certainty of description.
 This the 29th day of March, 1960.
 L. L. Mason
 COMMISSIONER

Murphy people are now getting their mail at the new post office on Hiwassee Ave. Transfer of the Post Office equipment from Tennessee Street location to the new building constructed a few months ago by Edward Brumby was completed Wednesday.
 Murphy High School brought back the first place trophy for participation in the Western Carolina Teachers College field meet last Friday at Cullowhee. Murphy scored 149 points, Franklin 93, and Cullowhee High 71.
 The Red Cross Bloodmobile will come to Murphy on Tuesday, March 28, and will receive blood at First Baptist Church from 12 Noon to 6 p. m. The Rev. James R. Crook, Blood Program chairman here, states that a total of 200 donors are needed for this visit.

and adults alike. Nothing thrills a child more than catching his first fish.
 In a well fertilized farm pond, it is not unusual for bream to grow to pan size in one growing season. The bass in the same pond will weigh a pound or better by the time they have spawned the first time. I know of several bass which grew to five pound size in from two to two and a half years after they were placed in the pond as one inch fingerlings.

Backward Glances

30 Years Ago, March 28, 1930
 At a meeting of some forty or fifty citizens and leaders of the town at the court house Thursday night, E. B. Norvell, prominent Murphy attorney, was named to head the ticket for mayor.

C. A. Swain recently opened a furniture factory in the gristmill building next to his home just east of town.
 The women's Club will present "The Whole Town's Talking," a laughable and complicated comedy, at the school auditorium on Friday night of next week, which is April 4th, at 8:30 o'clock, it was announced this week by those in charge of its production.

20 Years Ago, March 28, 1940
 Construction of a new road from Unaka to Hiwassee Dam, through Violet will be started at once, according to a definite promise made to the County School Board by District Superintendent of Roads McKee. The present road between Unaka and Violet is to be widened and given a crushed rock surface.

If Franklin Smith ever gets bored with supplying the regular market from his big poultry farm near Murphy, he might go in business raising freaks for side-shows. Saturday he came to the Scout office with a new freak in the form of a baby chick with four legs.

The chick was a New Hampshire, one of the three breeds in which he specializes. Its two extra legs were growing just below its "vent."

Bake Festive Breads For Better Spring-Time Meals

"One-a-penny, two-a-penny hot cross buns." How your family will enjoy these fragrant, spicy buns. Serve them for breakfast with fruit, eggs or cereal and a beverage. Try them for lunch with a salad plate or main dish casserole. They're not only fun eating but good for you.

Nutritionists recommend four or more servings of enriched, whole grain or restored bread and cereals every day. Breads baked with enriched flour supply needed food iron and the three B-vitamins, thiamine, riboflavin and niacin.

The English attributed even greater powers to hot cross buns. They hung one in the chimney place on Good Friday to prevent evil spirits from coming down the chimney during the year. They thought these spirits might ruin bread baking and cause other domestic troubles.

HOT CROSS BUNS
 2 packages yeast, compressed
 3/4 cup water (warm)
 1 cup milk
 1/2 cup sugar
 2 teaspoons salt
 1/4 cup shortening
 2 eggs
 5 cups sifted enriched flour

Soften yeast in water. Scald milk. Add sugar, salt and shortening. Cool to lukewarm. Add flour to make a thick batter. Add softened yeast and eggs. Beat well. Add spices, currants and enough more flour to make a soft dough. Turn out on lightly flour board or pastry cloth. Knead until smooth and satiny. Place in greased bowl.

Cover and let rise in warm place until doubled. When light, punch down. Let rest 10 minutes. Divide dough into halves. Roll out each half of dough to 1/2-inch thickness. Cut with floured 2 inch biscuit cutter. Shape into balls and place on greased baking sheet. Let rise until doubled. Brush with egg white. Bake in moderate oven (350 degrees) 20 to 25 minutes. Make r. cross of white icing on each bun.
