NORTH CAROLINA MEANS BETTER LIVING

Tobacco is big business in North Carolina. About 44 percent of our cash farm income is derived from tobacco alone, and 58 percent of all cigarettes made in the United States are manufactured within our borders. So whether you smoke "King-size" or regular, filtered or non-filtered cigarettes, chances are good that you are using—and enjoying—a North Carolina product.

Just as our farmers favor tobacco production controls, people throughout the state favor the system of "legal control" of the sale of beer and ale as being in the best interests of all concerned.
