

SENATOR SAM ERVIN SAYS

WASHINGTON — The drama of a nominating convention dis-

tracts attention from other significant events. While in Los Angeles, it was difficult to maintain proper perspective on the international life-and-death struggle.

RESPONSIBILITY — In this country there is the deterioration of old and tired values such as individual responsibility, self-reliance and respect for law and order and individual freedom. So many of our values are being sacrificed on the altar of expediency; the emphasis is on the group and its goals rather than on the responsibility of the individual to advance himself. As a consequence of these pressures, there is the fear that the federal government will become the master of the people and the mediocrity that results will further erode our valued institutions to the point of destruction.

A HOPE — My prayer for our country is that political leaders will resist the temptation to compromise with the expedient and instead take a stand for fundamental approaches and everlasting values to strengthen our unity at home and the responsibility of the individual in order that we may face the storm that is gathering against us. If our citizens can be told the truth about what we face, I have confidence that their decision will be right and that we will survive as the hope of democracy and freedom in the world.

Those charged with responsibility should set the example.

THE AREA OF Maryland is 10,577 square miles, of which 690 square miles are inland water surface.

1960 WHEAT UPPED ONE CENT

Price support for 1960 crop wheat in North Carolina has been increased to \$1.97 per bushel for No. 1 wheat. The rate announced for this state of \$1.97 per bushel compares with a national average support rate of \$1.78 per bushel. Support in this state last year was set at \$2.00 per bushel.

The total supply of wheat available for the 1960-61 marketing year is now estimated to be 192 per cent of normal. The variable range of support permitted under the law is from 75 to 90 per cent of parity. The level to be used is determined on the basis of the indicated supply and demand.

Cherokee County has a small amount of wheat allotment. There is no farm in the county that has as much as a 10 acre allotment. The law provides that any farm is allowed to grow as much as 15 acres of wheat and be eligible for price support even though the farmer does not have wheat allotment. This is different from burley tobacco. Burley tobacco is not allowed any acreage in excess of the allotment even down to 1 hundredth of an acre.

I feel that many farmers could profit by growing wheat on their farms and seeding lespedeza each year. It is a very good way to build up the fertility also.

Cherokee County farmers have pulled away from wheat due to the fact that it has become a problem to harvest it.

If and when farmers can be assured that combines will be purchased by some one in the county or communities to harvest this wheat and the news gets around we will see more farmers growing wheat in our county.

With the support rate of \$1.12 per bushel on corn and \$1.97 per bushel on wheat it makes the production of wheat look pretty good.

Mr. W. E. Matthews, Chairman of the Agricultural Stabilization and Conservation State Committee is cautioning farmers that in order to be eligible for price support they must be in compliance with their acreage allotment. This means that no farmer in Cherokee County could grow more than 15 acres.

Boiling Springs News

Mr. and Mrs. Wendell Sneed and son returned home Sunday after visiting relatives here.

Mrs. Lela O'Dell returned to Andrews Hospital for treatment last Monday.

Mr. and Mrs. William James and family and Mr. and Mrs. Harvey McRae and family of Owl Creek and Mr. and Mrs. Jonas Sneed of Ebenezer were visitors at the Boiling Springs Church Sunday.

A revival meeting will begin at the Boiling Springs Church the 5th Sunday in July.

Notla News

The Dooly Home Demonstration Club met at the Baptist Mission Wednesday, July 20, at 2:00 p.m., with eight members present.

The meeting was called to order and the devotional was read by the president, Mrs. Norma Potut. After the business meeting, Mrs. Cox gave instructions on "chair bottoming."

The next meeting will be held with Mrs. Thurston Potut. Mrs. Cox will serve as co-hostess.

Can Produce Chicken Kiev At Home

Some famous American restaurants serve Chicken Kiev, but any earnest cook willing to follow these directions can produce this delicacy at home.

Ingredients: 4 whole chicken breasts (from large broiler-fryers), salt, pepper, ¼ pound hard-chilled butter, ¼ cup flour, ¼ cup of milk, 1 cup fine fresh bread crumbs, corn oil (for frying).

Method: Prepare breasts. Place each piece of breast between two sheets of waxed paper; pound with flat side of cleaver or wooden mallet until meat spreads out into a thin slice; remove waxed paper. Sprinkle with salt and pepper. Cut butter into 8 equal crosswise

pieces. Place a piece of butter off center toward narrow thick end of each piece of chicken; roll thick end over butter; roll over piece tightly and press down edge; turn under side edges, press down and fasten with toothpick. Dust rolls with flour, roll in milk, then in crumbs. Refrigerate 1 hour or more.

Heat corn oil in a flatbottomed heavy saucepan (a quart of oil in right for a 3-quart pan) to 375 degrees. Add rolls slowly; turn with spoon to cook and brown all over — 3 to 5 minutes (lower temperature if rolls get too brown). If rolls are fried in two batches, keep first batch warm in slow (250 degrees) oven. Drain on absorbent paper. Makes 4 to 8 servings.
