## ATTEND ROCK HOUND CONVENTION

Dr. and Mrs. George Size are pictured with the fossil collection they will exhibit this year at the 10th Annual Convention of the Eastern Federation Mineral Society. Mrs. Size is holding a dinosaur tooth.

## Murphy Family Exhibits Collection At Rock Show

Dr. and Mrs. George Size and family left Wednesday to attend a rockhound's paradise. This is the 10th annual convention of the Eastern Federation Mineral Society. They will attend the whole convention as delegate and officer and enjoy the field trips for three days.

Many other interested people will go to spend the day to see the fabulous gems sent by the Smithsonian Institute and to get a good look at the curious and beautiful things attractively displayed. There will be rockhounds from all over the United States and possessions who spend their vacation each year in the company of others who share their enthusiasm for the nations fastest growing hobby. The folk dancing festival is being held at the same time.

Other rockhounds in this area who have outstanding mineral collections are Howard Martin of Murphy, Herman Estes of Brass-town and Arthur Palmer of Marble. Miss Bessie Laney has a good collection of N. C. rubies she found.

The above mentioned all belong to the Tri - State Rockhounds. The club is one of two who owns its club house. The other club owns its building but does not own its property as does ours. The Eastern Federation is com-

### CAN YOU HOLD YOUR GRAIN FOR BETTER PRICES?

This is to remind farmers that there is still time to construct storage of your corn and soybeans.

With your modern day harvesting equipment it is almost essential to have convenient storage in order to have an efficient operation and keep our equipment in continuous operation. This can be done by building storage on the farm. By having farm storage you will be in a better position to market your grains late in the marketing season and take advantage of any increased prices. Prices are usually at their lowest at time of harvest. If you need money at time of harvest, you can obtain price support loan on your grain and still retain title to your grain for future marketing.

Modern conditioning equipment makes it possible to store your grains even with excess moisture. The cost of conditioning equipment varies according to what your requirements are, but within a few years it could more than pay for itself.

Loans may be obtained at the ASC office in the courthouse for the construction of storage bins and for the purchase of drying equipment, if you need financing for this project. The interest on these loans is 4 per cent per annum and in the case of storage loans, are payable in four annual payments plus interest.

Cherokee County farmers so far have never taken advantage of the loan program offered by the government through ASC. I believe that when some of our farmers take advantage of this service and see how profitable it is to them we will see more farmers taking this services. To sum it up—it simply means a saving to the farmers.

You can see some storage bins on the E. A. Woods Farm near Andrews, it looks like these bins will last a life time.

## Free Methodist To Hold Missionary Rally

A missionary rally will be held at the Free Methodist Church, August 9, 1960, at 7:30 p.m. Rev. Edward E. Hayes, Port Au Prince, Haiti, will be the conductor.

Rev. Hayes, a veteran educator, holds a masters degree from Penn. State University. He founded the Haitian Inland Mission in 1949. Mrs. Hayes has translated the New Testament into Creole, the native language. For a true picture of the current situation just off our doorstep, you are cordially invited to attend this rally.

JOHN Marshall, who became Court in 1800, had never before held a judicial office.
