

Let honesty and industry be thy constant companions, and spend one penny less than thy clear gains; then shall thy pocket begin to thrive; creditors will not insult, nor want oppress, nor hunger bite, nor nakedness freeze thee.

Savings Bonds Purchases Reach All Time High

Cherokee County residents were congratulated this week for their part in increasing U. S. Savings Bond ownership to a new all-time high.

W. D. Whitaker, Cherokee County Volunteer Chairman for the Bond Program, said that nationwide holdings of Series E and H Savings Bonds stood at \$42.8 billion, as of August 31, according to official word sent to him from the Treasury Department in Washington.

Of this total, North Carolina residents own nearly \$500,000,000 and Mr. Whitaker estimated Cherokee County's share of the total at approximately \$2,600,000.

The report to Mr. Whitaker came in the form of a congratulatory letter from William H. Neal, Assistant to the Secretary of the Treasury and National Director of the Savings Bonds program. In it, Mr. Neal said that the new \$42.8 billion total tops the World War II peak of E Bond holdings by some \$12 billion, pointing out the steady growth which has characterized the bond program throughout the peacetime years since 1945.

"These statistical facts, however, are a comparatively minor part of the story," Mr. Neal told Mr. Whitaker. "Of vastly greater importance are the accomplishments of millions of families in making dreams come true through systematic savings; and the patriotic contribution of Savings Bond volunteers like you in making our program not alone successful, but even possible."

"I know I speak for Secretary Anderson and Under Secretary Baird in expressing the Treasury's congratulations and thanks for your part in this newest Savings Bonds achievement."

Mr. Whitaker said that one of every four Cherokee County residents is a bond-owner-the national average. He has been county bond chairman since 1942.

Highway Patrol To Get 5 Day Week

Governor Hodges has announced that he and Commissioner of Motor Vehicles Edward Scheidt and the Personnel Council agreed that members of the State Highway Patrol should be placed on a five-day work week effective as soon as possible, but not later than October 1, 1960. At the present time, the Patrol operates on a six-day week. This change in hours will result in reducing its official work week from 48 hours to 40 hours and will place the official working hours of the State Highway Patrolmen in line with the great majority of other State employees.

In announcing this change, Governor Hodges stated that this reduction in hours is in line with the national trend among law enforcement agencies and is in keeping with the present State's administration policy of reducing working hours wherever feasible.

Governor Hodges again paid high tribute to the administration of the Highway Patrol and the dedicated, courageous service of its officers and men. The change will affect over 600 Patrolmen and officers.

Old Manse Houses Sunday School

Murphy Presbyterians are in process of using greatly increased facilities obtained by the purchase of a manse on Valley River Avenue in East Murphy and the conversion of the former manse into an Education-Fellowship Hall.

The junior, intermediate, senior, and adult classes will be housed in the education building; and also a fellowship hall, kitchen, office, and storage room.

The nursery, kindergarten, and primary departments will continue to be cared for in the Church Annex which will also contain the chapel, or Assembly Room and minister's study.

Robert A. Potter, minister, and family removed last week to the East Murphy dwelling.

Members of the Building Council of the church include W. A. Singleton, chairman, and C. W. Barnett, from the

Session; Elmer Kigore, co-chairman, and Dr. Paul E. Hill, diaconate; Mrs. E. H. Brumby, church school; Mrs. R. H. Poard, woman of the church; and William A. Tuttle, Man of the Church.

"Tourism is Everybody's Business"

— says a recent editorial in the Greensboro Daily News. Tourism or Travel in North Carolina is a 385 million dollar annual industry. Its impact on our state economy is felt directly or indirectly by every man, woman and child in the state. Nearly 70,000 people directly serve the Tar Heel Travel industry. Their wages are over 100 million dollars a year. Their opportunity as good will ambassadors for our state is tremendous... But every other citizen also has a stake and responsibility to let our visitors know they are truly welcome. Hospitality costs little and can be one of our most valuable assets. In some counties our hospitality is restricted by the prohibition of the legal sale of malt beverages. Out-of-

state visitors in the great majority come to our state from areas where beer and ale are regularly enjoyed and prohibition has been out of favor for over 25 years. Out-moded laws are a source of irritation if not a definite detriment to an atmosphere of hospitality. Travelers have a way of avoiding places where they can't feel at home, or where they are subjected to personal restrictions or other unpopular and undesirable circumstances. The malt beverage industry is proud of its membership as a working member in the Travel Council of North Carolina which is doing so much to improve the hospitable atmosphere to provide a warm "welcome to North Carolina."

THERE IS NO SUCH THING AS A DR. COU

for that extra flick of flavor

JFG

SPECIAL COFFEE

Most everywhere folks are noticing that there really is extra flavor in JFG Special Coffee. It's there because of a very special blend of select coffee beans. And also, because JFG is so fresh. You see, it's roasted practically next door, so it comes to you fresh as fresh can be.

So have a cup and you'll agree, there's extra flavor in JFG... "the best part of the meal."
