

As I said in closing last week's column, the secret to the future lies in understanding how Congress affects. manity

VERY LIPE MAY DEPEND ON WHO WILL YOUR BE IN CONGRESS. The members of Congress generally have been good honest Americans who love their coun-try, but can you consider this as an outstanding asset in a fellow? Isn't it self-understood that everyone living in our land loves this country and is a good American? WHAT COUNTS IS KNOWLEDGE

MANY A BUM HAS BEEN ELECTED TO CONGRESS on nothing but stupid and phony promises. That is what too many people want to hear. A man can also sometimes get elected if he doesn't say a thing, That is considered smart, shrewd, and modest. The only trouble is that then the voters have no idea of what kind of a man they vote for. I would feel like a traitor to my district and my country if I would want to get elected on that basis. I want to be elected either my way or not at all. When I say my way I mean very simply this:

I DON'T TAKE PEOPLE FOR SUCKERS, I DON'T THINK PEOPLE ARE DUMB, AND I AM NOT GOING TO MAKE PHONY PROMISES OR CAMPAIGN SPEECHES THAT WILL WHIP UP EMOTIONALLY THE VOTERS WITHOUT ENRICHENING THEIR LIVES.

ANYONE IS FREE TO VOTE FOR MY OPPONENT and, except for his name, you are going to have the same sort of fellow in Congress as we had in the last half century. (And what do we have to show for almost 50 years of continous machine representation? In our district almost the lowest income per family in the whole wide United States.) That kind of groove can become a grave.

But, life has changed and we are facing problems and the people might as well realize that no President and no State Legislature, but only the U. S. Congress, has the authority or right under our Constitution, State or Federal, to come up with the answers or to pass the Taws affecting the nation and the people as a whole, LOOK AT IT ONCE FROM YOUR OWN PERSONAL POINT OF VIEW, Twenty years from now restaurants with waitresses will be a thing of the past. Restaurants will largely be automatic. People will walk into a res-taurant, push buttons, and get the kind of hamburger or steak or fried chicken with all the frills around that they want without anyone serving. And look a step further

WE NOW HAVE IN OUR NATION 65 MILLION WORKING PEOPLE, Most of them, in just 52 weeks or work every year, can produce far more than the people have money or the wish to consume and buy. On our farms in another 20 years from now a third

of the farm hands will only be needed to produce more food than our population can possibly consume without killing themselves by over-eating. We have entered a new as

WE HAVE ENTERED THE AUTOMATION AGE, which roduces a whole new set of problems. Ninty-nine out of 100 members of Congress haven't got the faintest idea how to cope with these problems. We also face external problems, which are very different from anything our nation has ever faced before, Again, 99 out of a 100 lawmakers haven't got the faintest idea of how to cope with communism in the same world with us.

You read newspaper after newspaper and they are all writing about the candidates for president. Yet they all shy away from discussing the vast importance of candidates for Congress.

THE PRESIDENT OF OUR NATION DOESN'T MAKE THE LAWS, the President doesn't decide how much foreign aid will be given to the rest of the world, the President doesn't determine the amount of taxes you pay, and the President doesn't decide what is being done with the farm surplus. The President only proposes to Congress; that is all! And the only other thing he can do is to administer in the best possible way the laws made by Congress.

Unless people come to understand this they will continue and continue to elect to Congress too many people that are unfit.

Please do not think that by electing me, everything would change overnight. My voice alone in Congress would be small. Only in time will some of the "old dogs" in Congress be replaced with capable men who know world conditions and the problems affecting humanity. Only then can a beginning be made toward creating a better world.

IF I WOULD BE ELECTED TO CONGRESS FOR ONLY TWO YEARS I MIGHT AS WELL STAY HOME, We have 437 Congressional Districts in our nation and the people in some of these districts have already started thro out their old horse-and-buggy representatives. They have elected younger people, who have the basic training and knowledge to understand and to solve modern day problems, But, unless we have a majority of those people in Congress (irrespective of their party affiliation), it

contact your local License Examiner for further inforatie

It is not necessary to start with the first session of the series because new students will be accepted at any time. The subject matter is divi-ded into four units so that students may enter at any ession and get full benefit of all the clinic.

Subject matter will include the physics of motor vehicle operation, safe driving pra-ctices and state motor vehicle laws. Interesting movies will be shown and demonstrations given. It is expected that stu-dents will include persons learning to drive as well as experienced drivers who wish brush up on the fine points of safe driving. Traffic clinics have been

established in many communities for the express pur-pose of dealing with drivers who are either uninformed or who do not have the proper attitude or respect for their responsibilities. As a name Clinic" implies, they are designed to instruct and educate and are not intended to be used as punishment,

The clinics are open to both violators and volunteers, people who are interested in learning more about safe driving make up a sizable perstage of the attendance, Violators, who are referred to these schools by the courts, are usually the first offenders, the youthful violators, or the "attitude" violators, in many of these courses where people have attended the clinic, the percentage of "repeat" violators has been remarkably low.

The PRIME OBJECTIVE of all trafic clinics; whether they be for violators only or for both violators and volunteers, is to prevent traffic accidents. This is effected in two ways: First, by installing the proper driving attitude in the student; and second, by improving the studen't knowledge of traffic laws and regulations, driving techniques and limitations, physical laws, and other factors connected with the actual operation of a motor vehicle, In addition to the benefits derived through a reduction in traffic accidents, these clinics promote good will and are a fine public relations activity for traffic accident prevention agencies, particularly the traffic courts.

ter taught in this course will help you in some way. Volunteers are invited to attend the clinic. But only a limited number of volunteers can be accepted at any one

time. If you are interested

will be all meaningless,

No one, regardless how selfless he may be and how hard he may try, will be able to do a great deal in training the "old dogs" in Congress to learn new tricks. It will just simply take new dogs who will be trained to cope, to perform, modern-day tricks. WHO DO YOU THINK IS TO BLAME FOR THE MESS

IN CUBA and all the mess that is going to come up in these next few years? The President? By no means, The blame is with a sleeping Congress, a disinterested Congress, Congress filled with too many members who are only interested to be re-elected, who are only interested to do the popular things, but, who would not consider any legislation which might lose them votes when it becomes time for re-elections, You must remember that MOST OF THESE PEOPLE

CONGRESS, even if the President, with the most brilliant and capable advisers in the country, proposes something, ARE ACTUALLY UNABLE TO UNDERSTAND the significance of most of the proposals made by the President. Again I say, these members of Congress are good citizens like you and I, but we don't need a Congressional popularity contest; we need a Congress fit to take care of our nation and indeed be the leader for the whole world. WHO IS TO BLAME FOR THE STUPID FARM SUR-

PLUS? Only Congress can change the farm surplus into something sensible. Our late Senator Scott had one of the most wonderful, humane, brilliant, and thrifty ideas about what to do with our farm surplus. But members of his own party would not even consider it. Senator Scott had the brains, the ingenuity, and the knowledge to look into the luture, but the others did not.

WHO IS TO BLAME FOR THE CRYING UNFAIRNESS in our land, the unfairness that in many counties people have hardly any income while in others the income for the average American living is tremendous? Is it the President? Or are the people in those poor counties to blame? Again it is only the Congress of the United States who is able to really look at the problem and pass complete new legislation to even out the standard of living even in our own land. IT CAN BE DONE BUT IT CAN ONLY BE DONE WHEN

THE MAJORITY OF THE MEMBERS OF CONCRESS ARE INTELLIGENT ENOUGH TO SEE THE NEED TO DO IT AND ARE NOT AFRAID THAT. THEIR ACTION MIGHT

COST THEM VOTES, LOOK AT OUR TAX LAWS, Is there anything more unfair in the world than these tax laws? But three months unfair in the world than these tax laws? But three months day and night, Congress spends time on discussing civil rights without getting one step further and real important legislation to our nation is just simply neglected and put off from year to year. People must come to realize the vast importance of Congress and, therefore, must come to realize their electing the fellow who paints everything rosy and makes the most begutiful promises, may one day cause regret. Even if the people change their outlook, then you may reat assured that it will be a long, long time before we will see any good results. WE WOULD NOT BE BOTHERED TODAY BY COM-MUNISM if in 1918 a majority of the members of Con-

MUNISM if in 1918 a majority of the members of Con-gress would have Seen intelligent enough to understand President Wilson and his insistence, that our nation become an active partner in the League of Nations, The

fact that we are now members of the United Nations is meaningless for the United Nations, in its present setup, can't enforce anything.

COMMUNISM CAN BE CONTAINED If Concress passes the right laws. Congress, yet today, even at this late hour, can still make laws that would enable every free nation on earth that is not yet completely in the clutches of communism to chase out of their countries every last filthy communist. This might not be popular legislation, but it is legislation that would assure peace and pros-perity to the free world. And after the people have seen how well the legislation works, they will enjoy this type

of legislation. I WOULD BE HAPPY TO SERVE, but I would only be happy to serve if you don't expect miracles, I would only be happy to serve if I can serve at least 10 or 15 years in Congress so that I and maybe another hundred men can gradually bring about a peaceful revolution in Congress.

HAVE TO BE ULTRA-CONSERVATIVE IN REM-EMBERING what has made this the greatest nation on earth and WE HAVE TO BE ULTRA-LIBERAL IN AP-

PLVING the best and most modern methods to stay ahead of the rest of the world. God has given me the right and privilege to think. This I will use until called by HIM and will use it to implement these ideas.

Pd. Pol. Ad.

1961 FORD GALAXIE CLUB VICTORIA-BEAUTIFULLY BUILT

## YOU MAY WIN ONE OF 8 1961 FALCONS TO BE GIVEN AWAY FREE

## Register at your NEIGHBORHOOD FORD DEALER'S Thursday, Sept. 29 through Saturday, Oct. 1

HERE'S ALL YOU HAVE TO DO TO QUALIFY FOR ONE OF THE 8 FREE FALCONS

L To be sight to we one of the 3 new Ford Falcons, visit your neigh-borhood Ford Dealer on Thursday, Sept. 29, Friday, Sept. 30, or Satur-day, Oct. 1 and -on the official entry form-list what you consider to be the 3 most important features of the '61 Ford models. Then, fill in the remainder of the form and sign it. No purchase is required. Determination of winners will be based on freshness and elarity of thought. In case of a tie, duplicate prizes will be awarded. This program is subject to all Federal, State, and local regulations. State, and local regulations.

completed entry form in the box marked "Dealer's box," on the Ford Dealer's showroom floor...and deposit the other half of your completed entry form, the "Judges' stub," in the box marked "Judges' box," also nearby.
