PTA Stresses Needs and Changes In Our Schools

The Murphy PTA met Monday night, October 17. Miss Ella Faye Byers, 6th Grade Teacher, conducted the devotional, accompanied by Mrs. Edna Whitely at the piano.

Mr. H. A. Mattox, Chairman of the Murphy School Board, and who was recently reappointed a director of the North Carolina Citizens Committee for Better Schools, explained the work of the Committee.

They want a Citizens Committee for Better Schools in each county in the state, and feel that the next four years will be profitable ones as more people are becoming interested in our schools welfare.

Changes in our schools come about slowly and in most cases require additional money. Some sources that may be used to acquire these funds are: The Federal Government, our State Government, and our Local or County Government. Since most changes come about as a result of demands by the people, Mr. Mattox stressed the importance of the people studying our school systems and requesting needed changes.

In the discussion it was brought out that while the Murphy Schools had many needs, such as lunchrooms, the schools are good and students from our schools do better than average in the colleges they are attending.
