99 OUT OF A 100 PEOPLE WANT CLEAN ELECTIONS

The 12th Congressional District is noted for its voting irregularities.

We have taken steps this time to assure that this infamy does not spread. People guilty of irregularities will be caught and punished.

For two years we have prepared ourselves for the election and we can assure you that anyone who votes in more than one precinct, or anyone who does anything irregular with an absentee ballot, will be prosecuted. We have set up the machinery to do it. Just remember that the law says anyone willfully and fraudulently committing any irregularity in regards to a candidate for federal office can wind up in the federal penitentiary.

Ninety-nine out of each hundred people want clean elections. This time that one person in a hundred who wants to cheat is going to have to pay the price!
