The one '61 car built to back up a long-term warranty

Ford led the way with the one car beautifully built to take care of itself... and you

On September 29, Ford Dealers set an industry trend—were first to extend their 1961 car warranty from the conventional 4,000 miles or 3 months to 12,000 miles or one full year, whichever comes first.

Why? Because Ford built the one car to support such confidence. Ford for 1961 is the one car beautifully built to take care of itself!

The '61 Ford was designed and built to the more exacting standards necessary to offer an extended warranty. Ask to see this warranty at your dealer's.

It is significant that Ford has so many take-care-of-itself features not found in other cars, regardless of price. These new Ford features are a triumph of exhaustive research, fine engineering, and quality construction that give you the most reliable Ford ever built. Drive a '61 Ford soon.

HERE'S HOW THE '61 FORD TAKES CARE OF ITSELF

<p>Lubricates itself—You'll normally go 30,000 miles between chassis lubrications. Then a quick, inexpensive Ford Dealer lube job (which costs about \$4.00*) will get you set for another 30,000 miles.</p> <p>Cleans its own oil—You'll go 4,000 miles between oil changes with Ford's Full-Flow oil filter.</p> <p>Adjusts its own brakes—New Truck Size brakes adjust themselves automatically for the life of the lining.</p>	<p>Guards its own muffler—Ford mufflers are double-wrapped and aluminized—normally will last three times as long as ordinary mufflers.</p> <p>Protects its own body—All vital underbody parts are specially processed to resist rust and corrosion, even to galvanizing the body panels beneath the doors.</p> <p>Takes care of its own finish—New Diamond Lustre Finish never needs wax.</p>
