### Mrs. Wilson, March of Dimes Head, Writes to Citizens

Robbinsville Mrs. L. W. Wilson, chairman of the Graham County Chapter of the NEW March of Dimes, is writing this letter to each and every citizen of Graham County.

Dear Citizens,

You are a part of the great army of people in these United States of ours that has won a battle that will go down in history as one of the milestones of our time. Why are YOU a part of this? In the past years you have given your pennies, nickles, dimes and dollars to fight Polio, and now we have a vaccine to prevent this crippling and deadly disease. Your contributions to the March of Dimes over the years, through the work of the National Foundation, have accomplished this unbelievable victory.

Today, we are asking you to contribute to the NEW March of Dimes. Is there no end, you may ask. No, for as long as 11,000,000 Americans suffer from some form of crippling arthritis or rheumatism for which there is no known cure; as long as birth defects afflict one out of sixteen babies born in the United States; and as long as 85,000,000 people in our country are still unvaccinated against Polio, we must call upon you again for your donation to the NEW March of Dimes.

These donations will provide funds and relieve crippling birth defects, arthritis, and speed the day when everyone will be protected against polio. Our message is more than a plea for funds. It is also your opportunity to play an important role in meeting the research and health problems of your community and country.

Look about you today and take stock of your good fortune. If your baby was born normal, if not any of your loved ones is suffering from the agonies of crippling arthritis, and if you are not confined to a wheel chair as a result of polio, you are numbered among the blessed. Give freely and gladly today say yes to the NEW March of Dimes.
