Thompson to head NC 2000

Governor Jim Hunt today announced the appointment of Pembroke State Dean Dr. Norma Jean Thompson as Robeson County chairman for North Carolina 2000.

Thompson will join other county NC 2000 chairmen and the Commission on the Future of North Carolina in putting into action a statewide program to set directors for the next two decades in this state.

"I am proud to appoint Norma Jean Thompson to head the NC 2000 effort in Robeson County," said Governor Hunt. "She is committed to making life in Robeson County and in North Carolina better, and she has the leadership skills to make sure Robeson County citizens

have a clear voice in this important state effort."

As NC 2000 chairman, Thompson will be putting together a local organization to build awareness among citizens want for their future in this state.

Thompson is the Dean of Records and Special Programs at Pembroke State University. A former member of the North Carolina Mental Health Advisory Council, Dr. Thompson is currently the executive director of the Pembroke State Alumni Association.

A joint meeting of the Commission on the Future and county NC 2000 chairmen was held October 22 at the Hilton Inn in Raleigh, beginning at 11:00 A.M.

Named Chairman of NC Fund Campaign

Elizabeth Lee of Lumberton has been appointed Robeson County Chairman of the North Carolina State University Alumni Association's 1981-82 Loyalty Fund Campaign.

Lee is a 1952 graduate of N.C. State's School of Design.

"There are 346 N.C. State alumni in Robeson County, and we're counting on them to expand our first unrestricted merit scholarship-The John F. Caldwell Scholars Program. Volunteers will be calling the alumni in the county during the month of November seeking their support in the form of association memberships," he said.

The Alumni Association established the Caldwell Scholars Program in 1975. Eighteen Caldwell Scholars are studying on campus this fall, each receiving a \$3,000 annual scholarship. The eleven thousand active members of the association made this

program possible.

The association's major thrust is to enhance further the academic posture of N.C. State through the expansion of programs designed to attract top scholars and recognize outstanding teaching. The slogan for the 1981-82 campaign is "Mindpower Designing our Future."

Lee will work with John G. Richardson of Lumberton, coordinator of a nine-county area that includes Robeson.

Support of alumni in Robeson County and the surrounding area will be key in the association's efforts to raise a half-million dollars this year.

Nationwide fund-raising efforts are under the direction of Charlie Lambert of Virginia Beach, chairman of the '81-82 Loyalty Fund Campaign, and Edwin P. Bounous of Morganton, association president.

Many Federal Tax Checks Unclaimed

GREENSBORO--Undelivered Federal tax refund checks for 1981 and prior years are waiting to be claimed by 1,073 North Carolina individuals, the Internal Revenue Service says. Most of these checks remain unclaimable because taxpayers moved and left no forwarding address with the U.S. Postal Service, the IRS says.

Undelivered refund checks can be reclaimed by filing Form 3911 with the Internal Revenue Service, 3131 Demot Road, Memphis, TN 38101. IRS officials say that a refund check can be reissued to the new address within 6 to 8 weeks.

When filing the form, the

taxpayer should provide the name and address as it appears on the return, any changes to the name and address since filing the return, the social security number, the type of return filed, and the amount of refund claimed.

The IRS also has a list of 153 North Carolina businesses who have undelivered tax refunds. The process for claiming business refund checks is the same as for individuals.

Taxpayers who know that they have a refund check due are encouraged to call the IRS toll-free number 800-822-8800 (Occasionally, this number is modified to ensure courteous 24 hr. rate response).

BEAT THE PEAK.

6 A.M. TO 1 P.M. AND 4 P.M. TO 9 P.M. ARE THE PEAKS TO BEAT THIS MONTH

During each day there are times when the most people want to use the most electricity.

Heating, cooling, cooking, laundry. Everybody wants more electricity all at once.

It's called the Peak Load. And our future electric

rates are affected by how high these peaks get.

But we can beat the peak, if we'd all use less electricity during peak periods. And more at other times.

It's not easy changing when we use electricity. But if we do, the peak wouldn't go up quite so fast.

And neither would the cost of electricity. CP&L
