### LEGAL NOTICE

North Carolina  
Robeson County

**Millie Gray Jones Revels, Plaintiff**  
-vs-  
**Charles Revels, Defendant**  
**Amended Notice of Service of Process by Publication TO: Charles Revels**

Take notice that a pleading seeking relief against you has been filed in the above entitled action in the office of the Clerk of Superior Court of Robeson County. The nature of the relief sought is as follows:

To secure an absolute divorce from you on the grounds of 1 year's separation, and the custody of the minor children born of the marriage.

You are required to make defense to such pleading not later than July 20, 1982 and upon your failure to do so, that the party seeking service against you will apply to the Court for the relief sought.

This the 3rd day of June, 1982.

In 1962, Bill Mosienko of the hockey team, the Chicago Black Hawks, scored an amazing three goals in just 21 seconds.

### LEGAL NOTICE

The Lumbee River Electric Membership Corporation, P.O. Box 830, Red Springs, North Carolina 28377, announces that it is making an application for a loan (loan guarantee) of approximately \$6 million from the Rural Electrification Administration which will provide for the construction of approximately 34 kilometers (21 miles) of 115 kilovolt transmission line. The facilities covered by the announcement are located partly in Robeson County and partly in Hoke County. The facilities covered by the announcement will consist of 10 kilometers (6 miles) of single pole transmission line running on a 30 meter (100 foot) wide right-of-way from a switching station on SR 711 2 miles southeast of Pembroke in Robeson County in a southerly and westerly direction to a new substation near Union School in Robeson County. The proposed route for the line proceeds along existing power line right-of-way from the switching station at the intersection of SR 711 and SR 1003 toward the south for 1.0 miles to the intersection with SR 1339. From that point it proceeds along existing right-of-way to the northwest for .2 miles. From that point the route follows new right-of-way in a straight line to the south for .8 miles to the intersection of U.S. Highway 74 and SR 1197. From that point it continues to the south along SR 1197 for .9 miles to the point where SR 1197 dead ends. From that point it continues to the south for .2 miles along new right-of-way until it crosses a Carolina Power and Light Company 230 kilovolt transmission line right-of-way. From that point the transmission line route turns west and parallels the 230 kilovolt line for 2.6 miles to the point where the line crosses SR 710. From that point the route continues to the south along SR 710 on existing right-of-way for .4 miles to the substation site across from Union School.

The new substation at Union School in Robeson County will be a 115 kilovolt to 12.5 kilovolt facility which requires a .4 hectare (1 acre) site. A Borrower's Environmental Report, which indicates anticipated environmental effects, has been prepared for the proposed project. A copy of this report can be reviewed at Lumbee River EMC's principal office or at the office of the Rural Electrification Administration (James A. Ruspl, Washington, D.C. 20250, telephone number 1-202-382-8930). The cooperative does not believe the proposed project will have a significant effect on the quality of the human environment. The Rural Electrification Administration will make its own independent environmental assessment prior to granting financing assistance for the proposed facilities.

A portion of the transmission line will traverse a 100-year flood plain from the point where it crosses the Lumbee River to the Union School in Robeson County. If there are any comments on the environmental aspects (including (1) potentially significant archaeological, historical sites and cultural resources, (2) important farmland, (3) floodplains, (4) wetlands, and (5) endangered species) of the proposed construction, they should be submitted to the cooperative within thirty (30) days of the publication of this notice. Additional information may be obtained by contacting Earl Belcher at the cooperative's office at the above address or by calling 738-1151. A copy of all comments received by the cooperative will be sent to REA for its independent environmental evaluation.

### NOTES-- --COMMENTS

The trouble with most public speakers is that they have little to say.

Those who love to argue should get a book of facts.

Emotions are valuable, but civilization teaches self-control.

Then there are people who would rather be sick than work.

The individual "with an idea" is often a nuisance to his friends.

If you don't believe anything, there's no law to make you.

The expression "piping hot" alludes, experts say, to the hissing sounds very hot food makes as it boils.

**It hurts more, but it's safer**  
Not too many years ago, children took a mid-day nap to guard against polio. A rested body resists diseases more successfully.  
Today, we depend on polio vaccines - both oral and injectable types. But here's a caution. It's apparent that the safest administration of polio vaccine is the "killed virus" injectable method. "Live virus" oral vaccine sometimes causes the illness it's supposed to prevent, while also endangering others living in close contact for up to one month.  
Are your vaccination and booster records current? Check with your physician.

which this is a part, the southwestern corner of Tract No. 4, in the above mentioned division, and running thence along said original line South 27-degrees 54 minutes West, to, as and beyond the center of said ditch 311.34 feet to a one inch iron pipe in said line; thence South 56 degrees 47 minutes East 241.15 feet to a one inch iron pipe; a corner of Tract No. 4 of the above mentioned division; thence North 33 degrees 13 minutes East 310.00 feet to a one inch iron pipe in the center of the above mentioned Secondary Road No. 1562; thence along the center of said road North 56 degrees 47 minutes West 270.00 feet to the beginning, containing ONE AND 82/100 (1.82) ACRES, more or less.

EXCEPTING, HOWEVER, from the above tract the parcel described in the release deed, dated April 6, 1979, recorded in Book AT Page, Robeson County Registry, with the description of said parcel as described in said deed being incorporated herein by reference.

The above-described real property, including the improvements thereon, may be generally and reasonably described as follows: 1.25 acre parcel of land with some landscaping adjacent to a public road near Pembroke State University.

The RECORD OWNER(S) of the above-described real property as reflected by the records of the Robeson County Registry not more than ten(10) days prior to the posting of this notice is (are) as follows: Gene A. Brayboy and wife, Mary Etta L. Brayboy.

The highest bidder at said date may be required to deposit with the undersigned immediately upon the conclusion of the sale a CASH DEPOSIT of ten percent(10%) of his/her successful bid. This sale is being made SUBJECT to all prior liens and encumbrances and to all unpaid taxes and special assessments. The sale will be held open for the making of UPSET BIDS as required by law.

POSTED at the front door of the Robeson County Courthouse in Lumberton, North Carolina by the undersigned on this the 23rd day of June, 1982.

### About Coke

The latest federal study shows that cocaine--known as coke but not to be confused with the popular soft drink--is now a bigger item in the drug world than marijuana.

Drug enforcement officials report an explosive increase in the use of this drug in the last four years. (During these four years, Carter Administration years, several of the president's aides were involved in drug charges and one resigned as a result. Another was tried and acquitted.)

The increase, federal officials say, has resulted partly because of the widespread impression that the use of cocaine is relatively harmless. But Dr. Everett Ellingwood, a Duke University School of Medicine psychiatrist, warns this is an illusion.

He was recently quoted as saying frequent use of cocaine, or high dosage, can be just as harmful as benzedrine and almost as harmful as heroin. It can cause paranoia, hallucinations, delusions of grandeur and manic depression.

In addition to all this, it is extremely expensive. Those hooked on cocaine often spend thousands weekly to supply their habit. Addicts sniff it or inject it in their veins or smoke it--sometimes mixed with other drugs. Dr. John Grabosaki of the National Institute of Drug Abuse says smoking it is the most dangerous form of use.

The drug works on the brain for only about an hour. Thus users often need a steady supply--at enormous cost. A recent survey showed that 12 percent of high school students questioned had tried it. Obviously our churches, newspapers and social workers need to stress the dangers and disadvantages of this drug more. It's not harmless but a very real threat to any victim's future happiness and health.

"Procrastination is the art of keeping up with yesterday."  
Donald Robert Perry Marquis
