Local Student visits New Mexico

Paula Brooks

Paula Brooks, daughter of Mr. and Mrs. Paul Brooks of Pembroke, recently returned from Albuquerque, New Mexico after a ten day visit with an Indian physician. The visit was part of an enrichment program offered by the Association of American Indian Physicians in Oklahoma City, Oklahoma. Ms. Brooks was selected through a competitive process conducted across the United States. She was one of ten high school and college students chosen for this program.

The Summer Live In program provides students a chance to live with a practicing American Indian Health professional for a 10 day period, gaining first hand exposure to an Indian physician's family life and daily job routine. This is the fourth year of the program which has enjoyed great popularity with past participants.

Paul's ten day stay in Albuquerque was an all expense enrichment provided by the Association of American Indian Physicians.

Through Paula's participation in the Health Career Awareness Project of the Robeson County Board of Education, she was identified and recommended for the ten day program held June 7-16.

Paula lived in Albuquerque with Dr. Frances Fisk, an obstetrician and gynecologist. Her days were spent going with Dr. Fisk on her daily hospital rounds and any emergency calls that may have arose after hours. She had the opportunity to view all the different areas of hospital work. Most of her observation was spent in the Presbyterian Hospital in Albuquerque which provided care just for Indians. Her observations with Dr. Fisk included every facet of a medical doctor specializing in ob/gyn. Paula observed a cesarean section while making a hospital visit with Dr. Fisk.

Paula regards her stay in Albuquerque as one of the highlights in her senior year. "I learned more than reading or talking. When you see it, it becomes real and so interesting. I wish all students interested in health careers could have this opportunity." Paul graduated from Pembroke Senior High School in June, as one of the top ten honor students there and plans to attend UNC-Greensboro to pursue Medicine or Nursing.

Woodrow Wilson was the only President in U.S. history to hold a Ph.D. degree.

The first mailboxes were erected in Paris in 1653. However, messengers, fearful for their livelihood, put mice in the boxes to destroy the mail; thus, no further attempt to install mail boxes was made in Paris until 1758.

It was indeed a pleasure to see and hear the youth concert last Friday night and also a wonderful message by their pastor from the Grapevine Baptist Church of Madisonville, Kentucky who had been with us all the week. Some forty men along with the pastor and his family left Mon. morning at 10:00 a.m. on the bus, for Fort Caswell and World Mission Week. They will return back this Sat. This is a yearly event.

Discipline
Today all you can hear is making her changed, it's not like it was in your day; Yes it has changed not for the better, but for worse...To me, there is no greater proof of your love for your children, then correctly applied discipline. The word discipline means more than punishment - it means guiding, teaching and directing their lives. To me one of the most important aspects of discipline is giving them specific guidelines... Making it clear to your children what they can and cannot do...When we children were growing up "Mom was very strict"...Little did we get to go..."But" and "If"...We knew when to be in, what time to go to bed, when to get up, what we had to do, etc...Just as the bell rings at school...Needlessly to say their right times has changed...The young folks today, about half or more, is living high on the roof...They lay down and get up when they please, have their own cars, making their own money. There is very little you can say to them...Little do some of them, be with their parents for guidance...Some "Their attitudes are intolerable." Were they living in a state of expectation? A World of wanderers need Christ's love expressed to them...But do we as parents take the time? And remember the Creation could not exist without the Creator to sustain it. For he holds the future in his hand.

Mrs. Rosalyn Lowery underwent surgery last week at S.E. General Hosp. Mrs. Lailure Locklear is a patient in S.E. General Hosp. Lailure is well known and one of the most noted leaders of our church.

Mrs. Annie Mae Harding Oxendine has been removed from I.C.U. In talking with her she seems to be in good spirits. And Almighty God had brought her a long way. Hopefully her condition will keep on improving.

I sincerely believe God has a purpose for our lives. Everything that happens to us is allowed as preparation for that purpose. As we look to him, he will show us how. He can use us in ways we never thought possible, to his glory and our joy.

A tragedy in our area Monday claimed the life of Miss Bertha Jones 56, of Lumberton and left Royce Reedy Cummings at S.E. General Hosp. The pickup truck in which they were riding overturned. Seven others received treatment at the hospital but were later released.
