**About Pool Protection
(NAPS)—Diving into these
facts and fallacies about pools
may help keep your own pool
cleaner, clearer and healthier.**

Fallacy: A chlorine odor from your pool means that there is too much chlorine in the water.

Fact: The odor is actually from chloramines that form when there is not enough free chlorine. It can be cured with a shock treatment.

Fallacy: Itchy skin and red eyes are definite indications of excess chlorine.

Facts: Wrong. Again, this is clearly a sign of too little chlorine. Shock treat the water and shower before entering the pool.

Fallacy: 4-in-1 products have just as much chlorine as a product called Super Sock It® brand.

Fact: Super Sock It® shock brand has 78 percent available chlorine, which is twice as strong as 4-in-1 products.

Control your diabetes for future generations.

The future of American Indians is threatened by diabetes. But we can fight it by controlling our blood sugar.

We can work to keep our blood sugar close to normal by choosing healthy foods, staying physically active, taking our diabetes medication, and testing our blood sugar.

We need to control our diabetes because our young ones look up to us. We must take charge of diabetes - for future generations.
