Control your diabetes for future generations.

The future of American Indians is threatened by diabetes. But we can fight it by controlling our blood sugar.

We can work to keep our blood sugar close to normal by choosing healthy foods, staying physically active, taking our diabetes medication, and testing our blood sugar.

We need to control our diabetes because our young ones look up to us. We must take charge of diabetes for future generations.

100 Top Hospitals Orthopedic

HANDS DOWN

The Best Orthopedic Service in the Mid-Carolinas

FirstHealth Moore Regional Hospital has been recognized as one of this year's winners of the 100 Top Orthopedic Hospitals in the nation for orthopedic care. We are extremely proud of this award, but it is our patients who truly reap the benefits of this recognition.

Established in 1999 by the HCIA-Sachs Institute, these awards determine excellence in hospital efficiency, quality of care, and value to consumers. The benchmarks of this award report that the 100 Top Orthopedic Hospitals produce better patient outcomes than their peers and are approximately 20 percent more likely to release elderly patients to home care after surgery.

Because Moore Regional Hospital is one of only three hospitals in North Carolina to achieve this recognition, our exceptional staff deserves a round of applause for its care and dedication to patients.
