

From the Gazette of the United States.

I have been a silent observer of the different modes of treatment adopted by the medical faculty in this city, in the bilious and remittent fevers; I have read with attention, every author of any eminence who has yet written upon the diseases of warm climates, and I have had a considerable opportunity of comparing the two doctrines so much agitated by doctor R. and his opponents, and I can aver, as far as my medical capacity will allow me to conclude, that there is no sort of comparison between the success of the stimulating plan, with that of the debilitating; for the calculation (according to the bills of mortality) in favor of the latter to the former, is as five to three, therefore data, so incontrovertible as the present, will warrant me to recommend to the inhabitants at this important crisis, to explode the prescription of bark and wine, for the invaluable improvement of bleeding and mercury for it is a practice supported by the evidence of almost universal success. Turn oh sons of Aesculapius, for why will you kill? Is it not better to renounce an old error that suppresses a new truth? Let the celebrated luminary, who shineth so conspicuous in the firmament of medicine, and who has trimmed the lamp of life with such unparalleled success, never want for oil in this cruise. May those satellites that revolve round Mercury, keep within the vortex of conviction, and they may yet give light to some being in the dark.

To be Rented, for
3, 6, 9, or twelve months, or longer term if required—in the town of Lumberton.

That well known commodious **HOUSE** called

POWELL'S TAVERN,

The particulars of the premises may be known by all that have frequented the house. The dwelling house 32 by 22, three story high, with an excellent kitchen, underneath the hall there is a ball room 22 by 24 feet, 7 windows, calculated to receive genteel societies: Two lodging rooms on the middle floor, a piazza, hall and two chambers, also one store and ware house, 24 by 32, a counting room and large loft sufficient to hold any quantity of grain that can be collected, at any one season.

One other house

36 by 14 feet divided into two rooms for the reception of a family, well finished, a stable 32 by 24 feet with a large loft; one other frame ready to raise 32 by 16 feet—calculated for a Billiard room, or any other purpose, and necessary small buildings and with as good a kitchen and garden perhaps as any in the county—also, the present use of four lots well improved and under good fences, one of which is for sale, and within two hundred yards of one Woods pasture of about 30 acres under a very good new fence, a plantation two miles and a quarter from town of 181 acres, on which is a field of about 40 acres, cleared, well fenced and necessary buildings thereon, and a tolerable good orchard, which yielded the last year 55 gallons of brandy, and six barrels of keeping cyder, besides the consumption on the premises; the whole may be leased together or in part as may best suit, those who may wish to lease.—For particulars apply to Richard Powell on the premises. Lumberton, August 7, 1795.

THIRTY DOLLARS REWARD.

WILL be paid to any person who will deliver to the subscriber in Georgetown, a mulatto **SERVANT WOMAN**

NAMED—

Nancy Oxindine,

she is a stout wench, of a light complexion, and appears to be about 30 years of age; it is uncertain what kind of clothes she may wear as she took a number with her.—It is supposed she has been enticed away by her brother and sister, who were here in February last—she probably is with one of them: the latter lives in Fayetteville, the former in a distant part of the state.

The above reward will be paid for her and at the rate of ten dollars for every hundred miles she may be, beyond Fayetteville.

JAMES DUFFEL.

The publishers of the NORTH-CAROLINA CENTINEL, &c. having admitted several Malignant Invectives in their paper, in consequence of a mistaken opinion "that all pieces accompanied with the author's name, would be inserted," they now assure their readers, that in future no inflammatory productions of a personal nature, will appear in the CENTINEL, as they are conceived destructive of the peace and good order of Society. They wish their paper to be the vehicle, thro' which intelligence, useful and entertaining, may be conveyed to the public.
