I therefore recommend it you, to raise these Supplies upon Luxuries, by adding a Duty upon Wine, Spirits, and other fermented Liquors imported, (except from Great Britain,) and upon all brought in by Land from the adjoining Colonies; and to re-enact a former Act upon all other Goods imported or brought in from the neighbouring Colonies.

Honourable Gentlemen of his Majesty's Council, Mr. Speaker, and Gentlemen of the Assembly,

I leave it to your Consideration, whether it won't be of public Benefit, when the Number of small Paper Bills are so much worn and diminished, that you should concur in ordering a reasonable Sum of the Money granted by Parliament to this Province, to be remitted over in the Copper Coin of Britain; or in such Coin as his Majesty may be pleased to order to be coined in the Tower of London, of equal Value, for this Province; which will be of great Use to the Poor, in the Markets of this Province.

As I hope you will unite in framing salutary Laws, for the general Benefit of this Province, I shall sincerely and heartily concur with you in every Measure, consistent with his Majesty's Instructions, and the general Benefit of Great-Britain and its Colonies, whose Interest is, and always ought to be, inseperable.
