### A. & T. College-

Continued From Page 1

1. The President is not interested in Agriculture enough to come over and pay visits except when company comes, then it is played up to the limit.

2. No telephone in the office of Agriculture, but a phone provided in the other departments.

3. All divisions of our department must bear expense and make money. The department is not operated as an educational project, but is strictly on a commercial basis.

4. The President is not interested in Agriculture enough to come over and pay visits except when company comes, then it is played up to the limit.

North Carolina  
Durham County  
Administrator's Notice

Having qualified as administrator of the estate of Ison Brown deceased, late of Durham County North Carolina this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned at 803 Pine Street, Durham, N. C., on or before the 21 day of August, 1937, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment. A. E. Teale, Administrator of Wilson Brown, deceased.  
Dated this 17 day of July 1937

5. The farm is operated by a blacksmith with no college training. The president and treasurer dictate to him concerning the operation of the farm and when failures are made and mistakes are blamed about it.

6. The farm superintendent hires and fires. He tells me he is not going to do a thing when he wants to.

7. In an attempt to fire me another man was hired to take my place. (I understand at a much higher salary than I am paid) and President Bluford is now trying to fire me in order to give the

man the job for which he hired him.

8. The largest salaries of the institution are paid to French teachers, relatives and special friends, qualifications are not considered.

9. Too many of the President's relatives on the faculty.

10. The faculty members are out of state people with the exception of two.

11. No graduates from the school have received scholarships except relatives.

12. I and members of my family are not shown equal respect as is accorded other faculty members and deans. Since receiving my Doctorate he has never presented me to the student body or

made favorable outward comments.

Dr. Spaulding was born in Columbus County. From 1917 to 1919 he served in the United States Navy as a member of the Emergency fleet at Norfolk and Wilmington. He graduated from A. and T. College in the class of 1925.

According to information obtained from Dr. Spaulding, he was president of the student body when Dr. James B. Dudley was president of the college, died, and against the wishes of the entire student body signed a petition to the trustee board requesting that Dr. Bluford be elected to the presidency of the school. Only one member of the student body signed the petition and that was Dr. Bluford's office boy. When the petition was presented to the board of trustees it was thought by its members to be the majority request of the students body. Dr. Spaulding did this as a personal favor to Dr. Bluford to aid him in obtaining the presidency of the institution.

**Refused Scholarships**

According to further information obtained from Dr. Spaulding, Dr. Bluford has done all in his power to prevent his from obtaining free scholarships for additional training. Also the president on several occasions has charged Dr. Spaulding with starting strikes among the students and being a trouble maker for the school. Further complaints made against the present administration of A. and T. College by Dr. Spaulding are as follows:

"I was employed by A. and T. College in Sept. 1928, as prof. of Agronomy. Acted as dean 1929-32, during the interim, my contract was held up by President Bluford because of a rumor that I had put out the word that he had resigned and was leaving. When traced was found that I had no connection whatever.

From 1928 to 1932, three scholarships were sent to the institution for me but my Pres. (Administrative officer) refused

to allow me to have them. The last one was a created scholarship at the recommendation of the State Dept. of Ed. Raleigh.

I was given a leave of absence in 1932 to go to school and my scholarship was taken from me and given a Virginian.

I entered Mass. State College Graduate School Sept. 1932. Early in November I had made such impressions on the Dean of the Graduate school that I was sent for and asked to apply for the position of Graduate Assistant in Agronomy, which position I held 'til I resigned to return to A. and T. College to serve the Negroes of North Carolina, with a Doctor of Philosophy degree and no increase in salary over a masters degree, and with three years teaching experience in a New England College.

"I was not given a contract

**TWO CHICAGO YOUTHS TO INHERIT A HALF-MILLION**

Wealth Bequeathed By Their Mother Said To Have Accumulated From Oil Interests In Ark.

CHICAGO — (AP) — Judge John J. O'Connell of the Cook County Probate Court, approved last week the report of the City National Bank and Trust Co., as guardian of the \$500,000 estate of two youthful Chicagoans, Arthur W. and John W. Sewell.

The former of the two youths, into his inheritance next year.

for this year because I refused to divulge the names of some summer school students who reported that one of President Bluford's pet lady teachers had made expressions to one of her classes relative to my wife, unbecoming to the profession.

**SCOTTSDALE BOY—**

she had been taken from the train. Immediately after the verdict was rendered by the jury Liebowski, chief counsel for the defense, announced that he would appeal the case to hell and back.

**CORNER WINDOWS NEW BUILDING TREND**

To the right: Corner French Windows for the Living Room

To the left: Corner Casement Windows for the Breakfast Nook

New Grouping Increases Light and Air in Home

A DECADE or two ago, houses all over the country began to sprout sun-porches. Outdoors porches were glassed in, insulated, and used as an extra living-room by the entire family. When a suitable porch did not exist, an additional room was often added for this purpose. Chinks, cracks and angles of casements brightened every neighborhood.

The joys of plenty for sunlight were found after a while, however, to have certain drawbacks. Pleasant by day, these rooms were discovered to have the traditional privacy of the goldfish bowl after dark. Under electric light, either every one of the many shades had to be drawn or the whole neighborhood and casual passersby had a spot-lighted view of the family life. Also, being entirely of windows, these rooms were hard to decorate in an attractive way.

The corner grouping of windows was a logical compromise and so successful that they are rapidly increasing in popularity. This arrangement of windows is not confined to any one room in the house. It is suitable for living room, dining room, bedroom or breakfast nook. It provides an adequate but restricted area of unobstructed light and air without disturbing the functions of the room as a whole. There are two types of application for the living room. One is the placing of two groups of French doors at the corner of the room as illustrated. These provide air and light and also give easy access to the outside garden or terrace.

Another is to have two groups of two or more regulation sash or casement windows. Broad win-

low seats on one or both walls, will provide a place for reading or resting as well as a grand play-space for toys inside the seats. Here children can play in sunlight while mother mends, sees over her accounts and yet keeps an eye on what is going on. In a home with a separate nursery, the same plan can be worked there.

The breakfast nook is a particularly pleasant place to use this double grouping. Nowhere is it more pleasant to have plenty of sunlight and air than at the breakfast table. Too often these spaces are dark and totally devoid of any circulation of air at all, and just a little planning would make possible this change. You will find too, that you use this alcove for many purposes outside breakfast service.

In building a new home, this type of grouping is, of course, easy enough to arrange, but you will be surprised to find how simple it will be to work into remodeling plans. Consult your local architect or builder and he will tell you how.

Try having a sun-corner and then wonder how you ever got along without one.
