

Bennett College Has Formal Opening Of New Dormitory

GREENSBORO, N. C.—Annie Mercer Hall, the second dormitory given to Bennett College by Mr. and Mrs. Henry W. Pfeiffer of New York City, was formally opened when Mrs. Julius W. Cone, chairman of the Buildings and Grounds Committee of the Board of Trustees, at the evening hour on Monday traditionally lighted the first fire in the spacious, yet beautifully appointed living room at the behest of Miss Desreta Devreux, a sophomore. President David G. Jones then introduced Miss Ophelia Bowe, a graduate of Bennett College, director of the new dormitory, and guests were invited to inspect the other rooms of the building.

Prior to the opening of the building, a short program was held in the Henry Pfeiffer Hall, honoring Mrs. Julius W. Cone, chairman of the Buildings and Grounds Committee. Adhering to the general theme, "Influence of Campus Life upon Students," Rev. H. C. Miller, pastor of the St. James Presbyterian Church of Greensboro, spoke from the point of view of a parent; Miss Nell Artis, a teacher in the Dudley High School of this city, spoke from the point of view of a Bennett Graduate; Prof. O. R. Pope, principal of the Booker T. Washington High School of Rocky Mount, spoke from an educator's point of view; Dr. Fleming P. Kittrell, dean of students at Bennett, linked the service which Mr. Cone had rendered with the everyday life of the students and Miss Jacqueline Myles, chairman of the house committee of the Annie Mercer Hall, presented the honor guest with flowers from the student body.

The college choir, directed by Dr. R. Nathaniel Dett, sang several numbers, most of which being the compositions of the director. Annie Mercer Hall, named for Mrs. Pfeiffer, now makes possible a dormitory on the Bennett campus for each class, the sophomores being fortunate in having the privilege of occupying this new building. Robert E. Jones Hall will be exclusively

KEEPS BUSY

J. A. ROGERS, noted Ethiopian war correspondent, and author of "Amazing Facts" about Negro history, who is keeping busy as he enters 23rd year as a student of the race problem. A native of Nagril, Jamaica, B. W. I., Mr. Rogers lives at 1845 Seventh avenue, New York City, and has traveled over Europe and North Africa in search of hidden information on the Negro's cultural heritage. (CSG.)

for Freshmen; Kent Hall for the juniors and Pfeiffer Hall for the senior class.

Each dormitory is directed by a graduate of Bennett College, the announced policy being to use Bennett graduates as dormitory directors because of their understanding and appreciation of the ideals upon which the school is operated.

DAUGHTER OF MOUND

BAYOU FOUNDER NAMED IN LAND CHARGE

MOUND BAYOU, Miss., Jan. 19.—(ANP)—Charging that she sold warranty deeds to land to which she claimed ownership, District Attorney Greek P. Rice last week had warrants issued against Miss Estelle Montgomery, daughter of the late Isiah Montgomery, famed as the co-founder

ANTI-LYNCH BILL FILIBUSTER SAVES ALABAMA MOB VICTIM

GREENSBORO, Ala., Jan. 19.—(ANP)—The intense interest being shown in all sections of the country in the U. S. Senate filibuster against the Wagner-Van Nuys anti-lynching bill was strikingly evidenced here last Tuesday when a planter used the South's opposition to the bill as an argument to sway a gathering mob from their avowed purpose of lynching a Negro prisoner.

The planter, Robert K. Greene, whose wife had allegedly been choked by Lee Jones, 31-year old mill employe, was the man whose plea spirited the prisoner away to the Selma Ala., jail, 50 miles from here. Greene is a brother in law of Representative Sam Hobbs (Dem.—Ala.).

Mrs. Greene told police Jones jumped in her car, threatened her with a gun, forced her to drive to a schoolyard, but she escaped after he had choked her. Her assailant escaped but Sheriff Calvin Hollis put bloodhounds on the trail, later captured Jones, who stands charge with kidnapping and assault.

Asked how he had stayed the mob's action, the victim's husband said: "I told them I was the aggrieved person and I ought to have the final say. I also reminded them our Southern Senators were fighting an anti-lynching bill in Washington and any violence might hamper them."

GRAND JURY FAILS TO INDICT IN ATLANTIC CITY ASSAULT CASE

ATLANTIC CITY, (C) Citizens here are thoroughly aroused over the failure of the Grand Jury to bring in an indictment in the case of Mrs. Laura Allmond, of this nationally known all Negro town. Miss Montgomery is charged with obtaining money false pretenses. Bolivar County officials asserted that her claim to ownership of the land was false.

A SCENE FROM THE PLAY "SUN-UP" STARRING THE RICHARD HARRISON PLAYERS

A scene from "Sun-Up", a 3 act drama of mountain life, which is one of the productions of the Richard B. Harrison Players of the A. & T. College Little Theatre, directed by J. Percy Bond. The characters shown in this scene are Miss Margaret Tynes, Greensboro, N. C. and Mr. Geo. Miller of Gastonia, N. C.

BRIDGEPORT MAYOR CONGRATULATES FIRST NEGRO FIREMAN

BRIDGEPORT, Conn., Jan.—(By Inez M. Holley for ANP)—Sworn in last Tuesday at a

"white" section of the theatre. A citizens committee, backed by the local Civil Rights Enforcement League, Dr. Albert E. Forsythe, chairman, will push the case to higher courts.

meeting of the Board of Fire Commissioners by John J. Hines, Clerk of the Board, George P. Clarke, a native of this city and a former high school star athlete became the first Negro fireman in both this city and the state.

The ceremony was witnessed by Clarke's parents and his brothers and sisters. Following his induction into service, he was congratulated by Mayor McLevy, popular Socialist, now serving his third term, by the board of com-

MISSIONERS AND FIRE CHIEF T. F. BURNS

Said the Mayor, "I want to congratulate you on being made a member of the Fire Department, which is an institution of which we are all proud. You should feel honored in being a member. You secured your position by your own ability, and you owe your appointment to no one but yourself. I hope that you will live up to the duties of your department so that the city and your race will be proud of you for years to come. I want to wish you all the success in the world."

HONORABLE LESTER A. WALTON EXPECTED IN THE UNITED STATES

BERLIN, Germany, Jan. 19.—(ANP)—The Honorable Lester A. Walton, United States Minister Plenipotentiary to Liberia, was a recent visitor at Berlin. After spending a few days vacationing in this city, he left for Famburz, and is expected to reach the United States the first week in February. Minister Walton is returning to the States on vacation and to be in attendance upon the marriage of his eldest daughter, Marjorie.

"I GROW TOBACCO"

I HAD A FINE TOBACCO CROP LAST YEAR—MY BEST YET AND THE CAMEL PEOPLE BOUGHT THE CHOICE PART, PAID ME MORE THAN I EVER GOT BEFORE. SO I KNOW THAT CAMELS USE FINER, MORE EXPENSIVE TOBACCO. CAMELS ARE THE CIGARETTE I SMOKE MYSELF AND MOST PLANTERS FAVOR CAMELS 'CAUSE A MAN WHO GROWS TOBACCO KNOWS TOBACCO SURE ENOUGH

The men who really know tobacco—the growers themselves—pick Camels as their favorite cigarette, according to George M. Crumbaugh. If you are not already a Camel smoker, begin now to enjoy Camels—the cigarette that is made from finer, MORE EXPENSIVE TOBACCO, Turkish and Domestic.

MR. GEORGE M. CRUMBAUGH, successful tobacco planter.

"WE SMOKE CAMELS BECAUSE WE KNOW TOBACCO"

News Boys And Girls Circulation Contest

First Prize

This Brand New Elgin Bicycle Given Away Absolutely FREE

Exclusive 49-coiled coaster brake and Alemite greasing system feature this handsome bike! Chrome plated fenders. Racy streamlined double bar frame. Reinforced front fork and handlebars. Finest ALLSTATE balloon tires with inner tubes. Saddle springs, truss rods, rim and chain guard. New patented reflector. Brilliant opalescent enamel finish—red or gunmetal with ivory trim.

To Boy Or Girl Maintaining The High Sales Average The Nine Weeks Of The Contest

ONLY SCHOOL BOYS AND GIRLS ACCEPTED FOR THIS CONTEST.

GET HIP BOYS AND GIRLS — HERE'S THE CHANCE YOU HAVE BEEN WAITING FOR.

2nd Prize
BRAND NEW GOLD FILLED
WRIST WATCH
TO BOY OR GIRL MAINTAINING SECOND HIGHEST AVERAGE
3rd Prize
BRAND NEW
FOUNTAIN PEN
ABSOLUTELY FREE TO BOY OR GIRL MAINTAINING THIRD HIGHEST AVERAGE

Contest Starts Thursday Jan 6th Contest Close Easter Monday April 18th Prizes Awarded Same Day

Any school boy or girl wishing to enter the CAROLINA TIMES Newsboy's and Girl's circulation contest may do so by registering their name with Mr. Charles Doomy, Circulation manager of the Carolina Times. Remember the contest starts next Thursday afternoon at 4 o'clock. Copies of the Carolina Times will positively not be delivered to any newsboy until that hour each week. For further information see circulation manager.

Your Home CONSTRUCTION-EQUIPMENT REMODELING

Bronze Keeps Buzzers Out

Back in the days when the man of the house spent a good deal of time tacking down carpets, or un-tacking them and beating them, he fumed what was left of his spare time by tacking cotton mosquito netting to the window frames and by un-tacking it after little Susie had practiced on it with her scissors, or Johnnie had pushed his head through it. How many millions of tacks each of us old timers has pounded in and peled out!

But not any more. Rugs for the floor, and full-length removable window screens, equipped with bronze insect cloth. And that—if you build the screens ourselves—means just one tacking, for the bronze screen cloth will not rust out, and it is remarkably resistant to Susie's scissors and Johnnie's head. It is, in short, the most durable sort of screen cloth, far better than the corrodible screen cloth that we thought such an improvement over the cotton netting, but which had to be painted every year, and even then had to be renewed from time to time.

More important, of course, than saving-labor and effecting long-run economy, is the effective protection of the home against insect pests. Bronze screen cloth, 16-mesh to keep out the smaller breeds of mosquitoes and gnats, will give the home complete protection against the pests that fly by day and night—disease carriers, all of them. Typhoid, malaria, yellow fever and many lesser ills—these are what you shut out from your home when you use the tough, durable bronze screen cloth on tightly fitting screens. Bronze, an alloy of copper, cannot rust and gives long and satisfactory service.

By the way, one word of caution. Be sure that the bronze screen cloth you use is standard weight—15 pounds to 100 square feet. Otherwise, your screens, although non-rustable, will lack the mechanical strength to stand the wear and tear to which most screens are subjected.

Why Not a Fan in the Attic?

Modern air conditioning has taught people that the interior of a home can be kept comfortable in any sort of weather. By the same token, it has set people thinking of ways to keep their houses cooler in hot weather, short of installing air conditioning plants in their cellars.

Lights for Sleepy Eyes

There are probably few grown people who have not barked their shins or stubbed their toes when trying to move about in the house in the dark after being aroused from sleep. It is so common a nuisance that it is a favorite subject of

the professional humorists. But it seems destined for the scrap pile, for present emphasis upon better lighting for the home has not neglected the question of suitable illumination for the house at night after the bright lights have been turned off.

Too, Kitchin Says, Is Becoming Common

There is another way in which a ventilating fan can be used to good effect. That is, by installing one in the attic to pull the air up from the lower floors and discharge it into the attic, whence it can escape through windows or louvers. Such a fan should be set over an opening in the attic floor above the second story hall. Then, with the doors of rooms on both floors left open into the halls, the suction of the fan will create a quiet circulation throughout the house, the air entering the windows, passing into the attic by way of the halls and then out of doors again.

In still, hot weather such a fan, operated at night, will cool the house much more quickly and thoroughly than it will cool off by itself. Then by closing the windows in the morning when it begins to get hot outside again, the house can be kept many degrees cooler through the day than it will be outdoors.

A Child Has His Own Ideas

The story is told of a mother who did over her small son's room in the most approved style of the day. When she got through the room was a beautiful example of the interior decorator's idea of what a child's room should be. There were bunk beds, one above the other; there was a harmonious combination of shining new child's furniture, and there were wall-paper animals in plenty on the walls. The boy surveyed the result soberly. "Must I have this room, Mummy?" he asked.

When you do over your room you please yourself. Not a bad idea, perhaps, to let your children please themselves about their room. Select the larger pieces of furniture yourself and see that they are strong and comfortable. Let the boy and girl decide whether the wallpaper shall picture a zoo, or a Dutch landscape, or scenes as seen in ordinary paper that will form a background for pictures they clip from magazines, for birds' nests and wasps' nests, for pennants, photographs or what they please.

Let the child choose the colors he likes for walls and furniture. Provide plenty of storage room in drawers and closets for his, or her, belongings. Provide shelves for books, curios, trophies and other knickknacks and as much table space as possible. See that there are good lights. And then keep out as much as God gives you strength to do so. BYEDMAN BROWN.
