C. B. Is it wise for my mother to take the trip that she has in mind? Tell me why my sister won't come to my house now that my mother is with me?

Ans: I see no reason why your mother shouldn't make the trip that she has in mind. The change would prove beneficial to all concerned. Pay little or no attention to your sister for she is inclined to "pout" and it won't mean a thing in the world.

M. A. R. The doctors said my husband had ulcers of the stomach and I do not believe it. He can not keep anything on his stomach and please tell me his trouble?

Ans: Your husband's illness has already been diagnosed and you would be using good judgment to take the doctor's advice. Do as he tells you and he will be able to relieve your husband in time. It's mighty foolish to take the attitude that you are taking.

L. B. H. I attended school away from home. Please tell me if I will be able to get a place to live when I return to school?

Ans: You will encounter no great difficulty in securing a

place to live upon your return to school next semester. Continue your schooling and do not lose hope.

G. E. B. Is my physical condition such as I think it to be? I am very much worried?

Ans: I do not think that you have sufficient reason to become too alarmed over your condition. Consult a doctor if you desire further information on the subject. Your fears are not founded on facts, but rather on imagination.

L. R. L. Why do I get so excited at times? Will he keep this promise?

Ans: Your lack of self confidence is the chief reason for your occasional spells of excitement. Try to overcome this fault by mixing more with strangers and also by relying more upon your own judgment. The man is sincere in his desire to marry you but the match will never materialize.

A. L. Recently I became involved in an unpleasant situation in my home city and my boyfriend sent me to another city. Lately he asked me to

Over 6,000 Negro children of pre-school age are benefiting from the training and care given them in more than 100 nursery schools provided in the Education Program of the Work Progress Administration. Not to be confused with day nurseries, these WPA nursery schools are havens for the tots coming from underprivileged families. The pictures above show some of these children who share in this Federal directed project.

Some 700 capable Negro workers are employed in WPA nursery schools. Under their guidance the children are taught good environment which develops their physical, mental, emotional and social relationships. Leaving no stone unturned in seeing that their charges get off on a good start toward useful citizenship, the WPA nursery school teachers get the cooperation of the home in studying the needs for the children. They also see that the parents learn the best methods of caring for the tots. (WPA Photos).
