

CELEBRATING OUR ELEVENTH ANNIVERSARY

MODERN EQUIPMENT

It is impossible for good workmen to produce good work unless they have good equipment, so the Royal Tailoring Company management has spared no money in purchasing the very latest and best equipment that money can buy. Approximately \$10,000 worth of new machinery is installed in our establishment and all day next Tuesday we will be glad to demonstrate to you just how much care is taken with the smallest job handled by us and the different processes through which it is carried.

Our equipment consists of two Hoffman Vorclone Washers, one Eagle Dryer, one Kelly Dryer, one Kelly Filterer, two Extractors, one Vorclone Wet Washer, two Hoffman Presses, one Hoffman Hat Machine, one Steam Spotting Table and one Excelsior Dress Dryer.

All of our machinery is practically new and kept in the very best condition. Each Machine is operated by a specialist whose responsibility it is to take care of his machine in order that it may at all times turn out the very best work. When you visit our plant on next Tuesday you will be delighted to see these various experts at work. You will know how well prepared Royal Tailoring Company is to handle your dry cleaning worries.

EXPERT WORKMEN

Every person employed in our plant is an expert in his particular field. We have devoted the greatest care in selecting the very best trained employees it is possible to find. Our entire personnel is taught to exert the utmost care in servicing each garment and to do everything possible to give prompt and courteous service to each customer.
