Four New Trade Courses Offered At A & T College

GREENSBORO
Four new trades will be offered at A. and T. College beginning with the Fall quarter according to information released early this week by S. C. Smith, dean of the college's Technical Institute. The new offerings include: photography, sheet metal work, painting and decorating and trades drawing.

New equipment for instruction in these areas have been set up in the new and modern Julian C. Price Hall which was completed during the past school year.

Photography, a nine months course, including portraits and commercial photography, is designed to give thorough training and practice necessary for success in this field.

Sheet metal, an eighteen months course, is designed to prepare individuals to enter a field that is in great demand and in which workers are paid a high hourly wage. The course will include a study of the manufacture and characteristics of sheet metal, methods of construction and requirements in industry. Instruction will be given in roof covering, guttering and methods in air conditioning and heating.

Applied drawing will be given as it relates to the various trade courses. It is designed for students majoring in trades.

Painting and decorating, a two-year course, will include house painting, interior and exterior decorating and paper hanging.

group to make a total of 81 delegates leaving from Durham to join more than 125,000 other witnesses of Jehovah in their 8-day convention opening July 19.

Stokes pointed out that Jehovah's witnesses are coming from every state in the Union and nearly 100 countries to participate in the largest religious convention ever to be held in America. Charter planes carrying delegates from Africa, Europe, and Latin America will soon converge on New York. Large delegations from Australia, New Zealand, South Africa and the Orient are already on the high seas. Some 18,000 Canadians are expected.

"It is significant in this materialistic age," Stokes said, "that people will spend millions of dollars for the privilege of assembling together to worship Jehovah God. It will be a feast for the mind on spiritual food. True faith in God is not declining. Jehovah's witnesses annually report a world-wide increase of about 20 per cent in the number preaching. We expect thousands more will be baptized at the convention."

Rehearing For W. Irvin Asked

TALLAHASSEE, Fla.
A motion for a rehearing for Walter Irvin, twice convicted and sentenced to death in the Groveland "rape" case, has been filed in the Supreme Court of Florida. The papers were filed

by attorneys of the National Association for the Advancement of Colored People here this week.

Irvin's second conviction was affirmed by the State Supreme Court on June 23 with Justice Hobson dissenting on the ground that the conviction should have been reversed because of remarks which State Attorney Jess Hunter made in his closing argument to the jury. The majority, however, held that the remarks were in order and upheld the conviction.

Irvin is one of the four young Negroes charged with attacking a young white housewife back in the Summer of 1949. Ernest Thomas, one of the four, was slain by a deputized mob. The other three were convicted, with Charles Greenlee, then 16 years old, receiving a life sentence, and Irvin and Sammy Shepard being sentenced to death.

On appeal to the U.S. Supreme Court, a new trial was ordered for Irvin and Shepherd in 1951. En route to the second trial, Shepherd was killed by Sheriff Willis McCall of Lake County, Fla., in whose custody he and Irvin were. Irvin also was shot by the sheriff and seriously injured.

Schenley Laboratories Introduce Sombulex, A Safe, Effective Hypnotic That Is Short In Duration

PHILADELPHIA
For patients requiring barbiturates as a means of inducing sleep, Schenley Laboratories, Inc. has introduced Sombulex, a safe, effective hypnotic that is ultra short in its duration of action. One of two tablets taken at bedtime, preferably with a warm beverage, induce sleep within 20 minutes.

Because it is rapidly and completely metabolized, usually within four hours, Sombulex is singularly free of the

mental fuzziness. The value of the active ingredients of this new sleep inducer has been overlooked in the trend toward more powerful barbiturates which produce a stronger hypnotic effect lasting a longer period of time, but which may also cause hangover.

Only in recent years, Schenley Laboratories point out, has the vastly stepped-up pace of industrial and social life created the conditions for which Sombulex is best suited. Its rapid hypnotic action, without a hangover, is tailored for the needs of patients who are experiencing for the first time interference with sleep due to increased tensions and complexities of living.

Sombulex is available only upon the prescription of a physician.
