

Juvenile Institute At NCC During Summer Session

22nd Annual Pre-June German To Be Held In Raleigh June 6th To Feature Big Rhythm And Blues Show

The 22nd annual Pre-JUNE GERMAN will be held at the Raleigh Memorial Auditorium on Monday night June 6. This year's Pre-JUNE GERMAN will feature a show and dance for the first time, presenting The Biggest Rhythm and Blues Show with a cast of twelve top flight Rhythm and Blues recording artists. Definitely the biggest show ever to be presented in Raleigh. It's the greatest musical bargain ever offered with every artist a champion.

The Biggest Rhythm and Blues Show will co-star The Famous Drifters; Roy Hamilton; LaVern Baker; Erskine Hawkins and his Orchestra; The Spanels; Willie Mabon; Little "Walkin'" Willie and his Orchestra; Jimmy Reed; The Hearts, a girl singing group; Della Reese; Jimmy Mitchell and Julian Dash. All these champions of Rhythm and Blues in one Big Show.

The show will be presented first at 8:15 with doors opening at 7:30. The dance will start after the show at 11

o'clock with music by the two great orchestras. Thiem's Record Shop from its New location on Fayetteville Street up over the Ambassador Theatre and Hamlin Drug Company will handle the mail orders and ticket sale.

Roy Hamilton, the hottest of the golden few of the recording artists who hit the top on the strength of his first record. The lucky platter was "You'll Never Walk Alone" on the Epic label. The immediate response to this fine rendition of the Rodgers and Hammerstein tune by the music business won Roy a hat full of adjectives and the crown reserved for the king of Male Vocalists.

LaVern Baker has been chosen by Downbeat magazine as "The Top Personality of the Year." This honor is one of the many which has recently been bestowed upon the gal who put the Rhythm in the Blues. In 1954 she pleased the European continent that she was

adopted by an Italian Count and Countess in Milan who gave her the right to use the noble title of Countess. Immediately after that the recording industry labeled her "The Tweedle Dee Girl" because of her very successful rendition of the Rhythm and Blues song that became number one on the hit parade. Her Atlantic recording of "BOP-Ting-A-Ling" is today's FIRST PLACE Rhythm and Blues hit in the nation.

The Famous Drifters for the past three years has been the hottest quartette in the country. Called by millions "The Honey Love Boys," they now have a new recording "What Ya Gonna Do?" among the nation first five top tunes.

With all these names on one stage this entertainment package is beyond a doubt the biggest show of all times.

Do's And Don'ts

"There Is Always Time For Good Manners."

A WORD ABOUT SCOUTING

BY HENRY W. GILLIS
District Scout Executive

Parent Teachers Association and the Boy Scouts of America. Scouting with its objectives of character development and citizenship training, has always been intended as a program to supplement the home, the church, and the school. It has been only natural that the Parent Teacher Associations as well as our churches, should see in Scouting a valuable tool for their purpose. In recent years, there has been steady growth in the number of scouting units affiliated with P.T.A.'s nationally and here in Durham. Today in Durham we have five schools sponsoring Cub Packs, Scout Troops and Explorer Posts. In 1938, 2,112 Units were sponsored by P.T.A., in 1952 the total went to 11,843. The result is that today the P.T.A. nationally sponsors more Scout Units than any other one organization, and has accounted for one-fourth of the total net gain in Scout Units.

This great increase in the P.T.A. use of the Scout program has been due to many reasons, the major of which seem to be: Rapid growth of the P.T.A. membership and influence. The National Congress of Parents and Teachers has grown by leaps and bounds in recent years and now has almost 8,000,000 members. The National Congress of Colored Parents and Teachers has a membership of about 140,000 in eighteen Southern States and the District of Columbia; and there are further members in independent local Parent Teacher Associations or organizations which are unaffiliated with the State and National Congress. The P.T.A. is now regarded, almost universally by educators as an essential bridge between the home

and the school. The objectives of the P.T.A. are such that Scouting can be of help in their accomplishment. Typical of these are the objectives of the National Congress of Parents and Teachers which among other things aim "To promote the welfare of Children and youth in the home, the school, the church and the community. To raise the standards of home life, to bring into closer relationship the home and the school, that parents and teachers may cooperate intelligently in the training of the child."

Increasing participation of men. Most local P.T.A. units now hold all or part of their meeting in the evening when fathers can attend, and many require that a good per cent of their Officers and Board Members be men.

Extension of P.T.A. to Rural Schools. Recently there has been a wide extension of P.T.A. units among Rural Schools. This is most significant since one-half of all boys in the country live in communities of 2,500 people or less, which is Rural by census definition. Much help is being received locally from P.T.A. units in sponsoring Scout Units in Rural Schools. Many State offices of the P.T.A. have distributed copies of the pamphlet Scouting in Rural Schools.

Next week we will bring you the last chapter on Scouting and the P.T.A. This weekend, May 20-22 we will have our Durham Division Advancement O-Rec at the Mt. Vernon Acres off the Wake Forest Highway beginning four o'clock Friday. See you then.

Local NAACP Meets Sunday

Reminding the public that "the fight for freedom is your fight," the local branch of the NAACP will continue its drive for new members in a meeting to be held next Sunday at the Asbury Temple Church, located just across the street from McDougald Terrace.

The program for the occasion will open with devotions by the pastor, Rev. W. Haywood Green, and music by the Amey Jubilee Singers.

A discussion of the topic "Do Integrated Schools Threaten Jobs of Negro Teachers?" will feature as speakers James T. Taylor, Instructor of Psychology at NCC, and Attorney M. Hugh Thompson. Each discussion will be allotted ten minutes.

Following this feature, a solo will be rendered by Miss Edna Cooper; and a report on the progress of the membership drive will be given by Attorney F. B. McKissick.

There will also be a report on memberships and the awarding of a trophy by R. N. Harris. The body will then hold a brief business session and hear the treasurer's report. With announcements and the benediction, the session will end.

Marvin L. Shelton, 810 Rankin Street, Wilmington, was one of fourteen medical students inducted into Alpha Omega Alpha when the national society in medicine installed a chapter at Howard University. The installation services were held in Baldwin Hall.

The principal speaker at the installation of the Chapter, the seventieth to be authorized by Alpha Omega Alpha since its founding, was Dr. Aura E. Severinghaus, associate dean of the college of Physicians and Surgeons at Columbia University.

The student inductees, selected on the basis of scholarship, character and future promise, included ten seniors, besides Shelton, and three juniors.

HEALTH in the SUN

Over 100,000,000 Americans annually pursue the sun with fanatical enthusiasm. Many are seeking its health giving benefits; all are desirous of a good suntan that will radiate youth and health. Yet, a comparative few, only about 18 per cent, take advantage of suntan preparations which will promote the tan they want while preventing skin damage.

It is estimated that at least 26 million people get burned seriously enough each year to require treatment. Those actively engaged in securing the public health encourage adult education on the dangers of solar irradiation since laymen are rarely aware of the harm it can cause. Though nearly everyone can vividly recall the agony of a bad sunburn, few realize the serious ills that can also result: Burns can prevent pigmentation in spots or in an entire area and thus temporarily, or even permanently, ruin chances of acquiring a healthy looking tan. Repeated burning can rob the skin of its elasticity and smooth texture. To be feared far more is the possibility of engendering a pre-cancerous skin condition as the result of frequent over-exposure.

The chief reason given by non-sun lotion users for their negligence is that they require no protection. But these people need to understand that each visit to the beach presents a different set of circumstances which alters the length of time an individual will be able to tolerate the sun's rays safely. Until they are aware of this, they are tempting fate.

Skol, known the world over for its ability to promote a good suntan, is a particularly pleasant product to use and provides sun-security for as long as 4 hours. Its exclusive new plastic spray bottle makes it possible to get protection with a miracle-thin film, only 1/25,000 of an inch thick!

Being Held For Juvenile Workers

The Institute for Juvenile Probation Officers and Workers will be held for the second year at North Carolina College from June 27 through July 1.

The North Carolina College Summer School and the National Probation and Parole Association with the cooperation of state and local officials are sponsoring the institute.

The staff includes Dr. Charles E. King, NCC sociologist, director; Tully McCrea, field consultant, National Probation and Parole Association; Dr. Alvin W. Rose, professor of sociology at NCC; and Dr. Carol C. Bowie, professor of psychology at NCC.

Among the purposes of the institute are "the providing of opportunities to inservice personnel of juvenile and domestic relations courts for the professional study and acquaintance with new techniques, new knowledge from research, experiences, and procedures for dealing with the problems of understanding, controlling, treating, and preventing juvenile delinquent behavior and problems involving domestic relations."

Registration starts at 10 a.m. on Monday, June 27. On that day also McCrae will present a "Case Analysis" from 2 to 4 p.m. and the group will be shown a film, "The Quiet One."

The Tuesday June 28 program features discussions of the film of the previous day with an open discussion of the analysis with the group.

Two of the highlights of the Wednesday June 29 session are Dr. Bowie's discussion of "Domestic Relations, Court: Social Service Policies and Procedures" and Lucius H. Ranson's talk on "Domestic Relations Court: Legal Aspects."

On Thursday June 30, Dr. Bowie and McCrae will lead an open discussion of the previous day's talk and Drs. King and Rose will speak on "Current Research Analysis: Delinquency." This topic will be continued in the discussion of the last day's meeting on Friday July 1.

Vacation time can be fun time—if you make the proper preparations before you take your vacation trip. If you are one of the 28,000,000 persons who will be taking a vacation trip during the next six months, it is likely that you will take the family car and will clock some 1,000 miles on it before you are through.

There will be sun-burned backs, upset stomachs, and car-sick kiddies and adults galore before the summer is over.

You can insure a happy vacation by following a simple check list of MUSTS.

1. Check your dentist. A toothache far from home can be catastrophic.
2. Check your doctor. Bonamine, the motion sickness drug, will keep car or air sickness from shattering your vacation. Clinical tests have shown that a daily dose of the drug will provide 24-hour protection against motion sickness. This drug is now available in a convenient mint-flavored, chewing-gum tablet. Ask your doctor to prescribe a poison ivy remedy and adhesive bandages.
3. Travel light. Carry the minimum, but enough to give you complete comfort and weather protection.
4. Name-tag all your luggage. Paste your name and address on each piece of baggage.
5. If you are going abroad, check health regulations of the countries you plan to visit.
6. Visit your neighborhood drug store and stock up on shaving cream, cosmetics, toiletries, razor blades, film, sun glasses, talcum powder, a fungicidal powder for athlete's foot, mineral oil or milk of magnesia, sunburn lotion, a poison ivy remedy and adhesive bandages.
