Now the Society must seek a couple "just right" for Nancy. What sort of home would be selected? First, a home not in Eastern Carolina since that is where Nancy's mother was living. This is in line with a strict Society rule never to find homes for babies in the section from which they come.

Second, a home of modest means where she will get a high school education but where parents will not expect a "mental giant."

Third, a home where Nancy's carrot top and blue will be welcome and appreciated by parents with similar coloring. Her looks and build must blend with those of her parents.

Fourth, a home willing to accept Nancy, with full knowledge of her possible defect and her full background.

There was one home on file at the Society that filled the bill exactly. When the case worker explained to the potential parents, the possibility of a physical defect, they exclaimed, "Why, of course we want her. If we had our own child, we would possibly."

Nancy gurgled when her new mother took her in her arms for the first time, while her new father stood by, beaming with slightly misty eyes at his new family.

This Fall United Fund of Durham and Durham County's annual drive will get underway for funds to continue to give service to the hundreds of Nancy's and youngsters like her that need a home and loving parents. The Society is the only state-

state legislature passed a school "placement bill" which has as its admitted purpose the maintenance of segregated schools in that state.

The bill, which became law on August 2 without the signature of the governor due to the timing of its passage, gives to city and county boards of education the police power to "assure social order, goodwill and the public welfare" in assigning pupils to elementary and secondary schools.

Each child is to be assigned to a school on an individual basis after consideration of some dozen factors in his case.

These factors include "the effect of admission of the pupil upon the academic progress of other students," "the possibility or threat of friction or disorder among pupils or others," and "the possibility of breaches of the peace or ill will or economic retaliation within the community."

NCC Professor Returns After One Year's Study

Dr. Joseph Sandy Himes, Jr., professor of sociology at North Carolina College, Durham, is scheduled to return to NCC on Sept. 8 after one year's post-doctoral study under the auspices of the Fund for the Advancement of Education.

DOUBLEDAY AND COMPANY PUBLISHED THE BOOK
The brilliant NCC sociologist, who refuses to permit partial blindness to interfere with his productivity as a scholar, is author of the popular sociology text "Social Planning in America: A Dynamic Interpretation."

In the course of his one year's leave, Dr. Himes has been auditing graduate courses in sociology and related fields at the University of California, Ber-

keley, University of Southern California, Los Angeles, and Stanford University, Palo Alto.

During the period of the scholar's leave from NCC, he added two more publications to an already imposing list of scholarly articles in learned, professional journals. The August, 1954, issue of "Marriage and Family Life" carried Dr. Himes' study on "A Value Profile in Mate Selection Among Negroes."

A more recent one of the sociologist's studies appeared in the highly respected "Social Forces" magazine. It is called "Value Analysis in the Theory of Social Problems."
