James Stevens, Hillside Senior, in Finals of Scholarship Competition

James A. Stevens, Jr., a senior at Hillside High School, and President of the school's Student Council, has been named one of the finalists in the 1959-60 competition of the National Merit Scholarship Corporation Program, and has been awarded a Certificate of Merit, according to Principal H. M. Holmes.

The Certificate which was awarded Stevens attests to his high academic promise.

The Hillside senior distinguished himself by his high score on two college aptitude tests used in the National Merit Scholarship competition. About six-tenths of one per cent of the seniors in each state received the awards. A national total of 10,000 students were honored.

Over 550,000 students were tested in the 1959-60 competition which began last April. The test results have pared the competitors down to the 10,000 Finalists from which the Merit Scholars will be selected and announced this spring.

They, and the college they have chosen will share in the several million dollars in Merit Scholarship funds to be offered by over 110 different organizations, and individuals and by the Corporation itself. The winners will be announced about April 27.

The selection of the Finalists will be made by the Merit Scholarship Selection Committee, a panel of experts in academic selection, and by special judging teams convened by various donors of Merit Scholarships. High School grades, leadership, citizenship and extra-curricular activities are considered as well as test scores.

Merit Scholarship are four-year awards, and carry stipends that range from \$100 a year to \$1500 a year. Each stipend is individual, determined on the basis of need.

The National Merit Scholarship Corporation was established in 1955 with grants of \$20.5 million from the Ford Foundation and the Carnegie Corporation of New York. The current program is the fifth that has been conducted. Over one and one half million students have participated. Of the more than 3000 Merit Scholars se-
