### A PRAYER FOR WRITERS AND NEWSPAPERMEN

O THOU GREAT SOURCE of truth and knowledge, we remember before the all whose calling it is to gather a window of facts for informing the people. Inspire them with a determined lova for honest work and a statusch hatred for the making of lies, but the juigement of our nation be perverted and we be taught to call light darkness and darkness light. Since the sanity and wisdom of a nation are in their charge, may they count it aligned to set the making inspire the main of the people with famehoods and more the sanity never suffer themselves to be used in dargings the mind of the people with famehoods and more the people with famehoods and

prejudice. Grant them boldness to turn the unwelcome light on them who lave the darkness because their deeds are evil. Put into their hands the abining sword of cruth, and make them worthy successers of the great champions of the people who held truth to be a help, thing by which mains live and for which men should die. Cause then to reall the thet have a public function in the commonwealth, and that their country may be saved by their courage or undone by their cowastics and allence. Cruse them the heart of manhood to cast their mighty influence with the forces that make the people strong and free, and if they suffer loss, may they rejoice in that as proof to their souls that they have fought a good fight and have been servants of the higher law.

## Poverty A Factor in the High Rate of Delinquency

. The efforts of Dr. Andrew A. Best to arouse Negro citizens of North Carolina as to the high rate of illegitimacy, illiteracy and poverty among their people, especially in eastern North Carolina, should receive the support of all good citizens. The newly organized North Carolina Joint. Council on Health and Citizenship will go far in decreasing the high rate of the three scourges if Negro leaders will fall in behind Dr. Best and give the organization both moral and financial support.

The Carolina Times is happy to felicitate Dr. Best for his efforts in bringing into being an organization that can mean the diminishing if not the wiping out of illegitimacy. illiteracy and poverty among Negroes in North Carolina. If the meeting held in Greenville on Sunday, October 9 was able to let white citizens of the state know that at least some of its Newro leaders are interested in trying to solve the problem it has served a preat purpose.

As was brought out by Dr. Samuel D. Proctor, who addressed the group assembled in Greenville, illegithnacy, illiteracy and poor health are not racial traits but are usually found where there is poverty. The fact that Negroes are generally left on the outside looking in when it comes to the better paving jobs in the state should be carefully

The hour is fast approaching when this na-

tion will be called upon to choose a new presi-

dent. The event which takes place every four

years on the first Tuesday in November should

be viewed by every intelligent citizen of the

United States as, among the most important

of his life. For those of minority groups, espe-cially the Negro, exercise of voting rights has

a double importance in that it is the surest

way that his vote can be heard and his weight

felt among governmental affairs of this na-

tion. To fail to exercise that right therefore,

will leave the Negro as an impotent factor not

considered when any plan for the eradication of the problems is being considered. Inless the economic level of Negroes is to be improved, the NCICHC is certain to have an uphill struggle in its program.

This newspaper would like to see Negroes included as clerks, stenographers, bookkeepers and otherwise employed in state, city and county governments. Employment of Negnoes as highway patrolmen, tax evaluaters and collectors are other fields in which Negroes as taxpavers and citizens should be considered. As it now stands, only two cities in North Carolina are employing Negroes as firemen; only three counties employ them as deputy sheriffs, jailers or even as convict guards, as revolting as such employment is. In spite of the good intentions of the NCJC HC. unless Negroes can improve their economic status there is little hope that it will be able to improve to any degree the rate of illegitimacy, illiteracy and poverty now existing among Negroes in certain sections of the state: Along with the lectures of Dr. Best on morals and health, we trust the organization will include some program to arouse Negroes of the state of the impotance of registering and voting as a solution to many of their problems.

# Must Face Responsibility

PHILADELPHIA, Ba.-Negroes jeopardine their movement to-ward first-class citizenship when they make no bold, open effort to deal with problems that are particularly acute among Ne-graes, is the opinion of Carl T.

In the current (October 22) issue of The Saturday Evening Post, the Negro author finds that the same jeopardy exists when Negroes make no real effort to ssist the majority group to a botter understanding of the efforts Negroes ARE making and of the reasons why they cannot

"Negroes contend almost unaninously that Negro responsibility will rise as Negro opportunities and freedom rise," Rowan says. 'The nation 's history supports contention. But events of the last two years suggest that in order to win complete equality, the Negro is going to have to show more responsibility than his opportunities and freedoms would warran

nealize that it is not enough blame every Negro misdeed on segregation, or to pretend that integration will be a cure-all for every social problem in sight."

Rowan's article, "Are Negroes Ready For Equality?" says that the Negro is paying more than he can afford for his attitude to-

ward Negro crime. It is reported that this atti-tude has been based on the betude has been based on the be-lief that the mere assumption of responsibility to "do something" would be tratamount to admitting that Negroes constitute a special law-enforcement problem because they are Negroes, and that there is a special racial factor in crim

# Snail's Pace of School Integration

Schools have opened throughout the South this year without the disorders and insitement that have made previous such openings an occasion for anger and scrrow. It would be more of an occasion for self-congratulation if the orderliness meant that the South had given up its massive grudge and that Negre children were attending white schools in steadily growing numbers.

Such is not the case. Two Negro girls entered a white high school in Richmond, Virginia. One girl was admitted to classes in Dollarway, Arkansas. Houston schools and the closing of entire admitted Negroes to classes "under protest and duress." But districts. It is not possible for all of us to assist in the campaign to secure a million new Negro voters in this country but each one of us can make the task easier by going to his own polling place and voting. Don't wait to be urged, coaxed or begged but do this of your own accord, whatever your party affiliation. You must remember that the exercise of your right to vote is one of the most cherished pri-

Urge them to register and vote and to call five other persons in turn. By so doing a chain reaction can be stanted that will result in thousands of others registering and

Negro vote a determining factor in defeating one of the most anti-Negro candidates ever to run for public office in North Carolina in modern times. From a national standpoint the Negro vote can become equally as important in selecting the next president of the United States, With this in mind we again urge every qualified Negro man and woman who has not done so to register and then, vote in the election to be held next month. The books are now open and will remain open Saturday. October 22 and 29 in order that those who have not done so may have the opportunity to register so that they can vote on November 8. Presidential campaigning has gone into the space age with alk the pomp and pageantry that formerly rode on the back of campaign trains. When we note the bare knuckled television fights of both candidates on the same stage discussing the same issues, it is much like the pugilistic contests in which the vic-tor's hand is raised in a desion of victory. The fact that a vic-

The Debates Between Presidential Candidates

Alright in Principle, But They Cloud the Issue

recent debate gave more A than the usual amount of time to the question of civil rights. The fact that the audience was nationwide meant that some losses would be expected by either candidate if issues were not squarely met. The fact that the vice presi-dent, had accused Senator Kennedy of avoiding the civil rights nen in the south gave opportunity for Senator Kennedy the same accusation. When faced with the nation both ere given opportunity to give their intention on civil right Topcint out that both candidates hit the issue squarely would be confusing the average voter. should be noted however is that the method of implementing the present laws differed. Senator Kennedy proposed executive lead-ership in the solution of the civik rights problem, while Nixon step further in stating that the Attorney General of the United States would be empowered to take action in such matters. This we would consider an answer to the opponents of civil rights. Obscured from the Inselight of felevision pagentry are the two remains mells of the presi dential hopefuls. The Democrat's selection of Senator Johnson as a running mate for Senator Kennedy considered a compromise to the south on the civil rights issue in many schools for thought. Thus it now appears that what members of the Board should have done voluntarity because it was morally right they are going to be forced to do by law. This is unfortunate. It is unfortunate when one considers that with all of our preaching and pious church affiliation it appears that a majority of us have never imbibed one iota of the spirit of brotherhood as taught by Jesus nearly 2,000 years ago.
