Says Lyndon Johnson's Image Has Changed Since He Took V-P Office

The image of Vice-President Lyndon B. Johnson has changed in Negro America, concludes a critical examination of the Texan's first year in office in the March, 1962 issue of SEPIA Magazine.
The article, which traces the Vice-President's career from his birthplace in Johnson City, Texas in 1908 to the present, is searching and penetrating.
It is written by Howard B. Woods, executive editor of the St. Louis (Mo.) Argus newspaper.

YOU CAN LIVE LONGER

Diabetes is caused by a defect in the pancreas. This gland supplies insulin, which converts sugar and starch to body energy. When the insulin supply fails, sugar spills over into the bloodstream, and eventually into the urine. In diabetic shock too much insulin has been released too quickly, resulting in dizziness, blurred vision, hunger, perspiration, headache and irritability. In diabetic coma too little insulin is at work for the body's needs, resulting in nausea, vomiting, shortness of breath, and sometimes abdominal pain. Your physicians will help you detect diabetes through a urinalysis and bloodsugar test. If you have it he will help you to an active normal life. We at the Scarborough and Harrett Funeral Home feel that a Healthier community is a Stronger Community.
