### "Misleading," Say Leaders of Sanford Claim

Durham Negro leaders un-  
animously described as deliberate-  
ly "misleading" a statement is-  
sued from the Governor's of-  
fice last week showing the per-  
centage of Negroes employed by  
the State of North Carolina.

The statement, prepared by  
the Personnel division and given  
to Governor Sanford by Person-  
nel Director Walter Fuller, pur-  
ported to show that Negroes  
were not being discriminated  
against by the state in employ-  
ment.

"I am convinced that the state-  
ment made by Fuller is mis-  
leading. It is obviously design-  
ed to create a misleading im-  
pression. Our state can't make  
progress if we are going to per-  
petuate this sort of thing to be  
done."

This was the reaction of  
Junius H. Wheeler, chairman of  
the Durham Committee on Ne-  
gro Affairs.

His comment was echoed by  
scores of other Negro leaders  
this week.

N. B. White, chairman of the  
employment subcommittee of the  
Committee on Negro Affairs,  
also agreed that the statement  
was "misleading."

"It is general knowledge that  
Negroes are not hired by the  
state except in isolated cases in  
jobs beyond those requiring  
special skills.

"I am sure that if an analysis  
were made to the report, it  
would show that gross dis-  
crimination against Negroes  
exists in the state's employ-  
ment policy."

the number of Negroes em-  
ployed by the state is two per-  
cent higher than the percent-  
age of Negroes in the state  
population.

The report showed that the  
state employs 27,770 white per-  
sons and 28,381 Negroes.

The report failed to include  
a breakdown on the various  
types of jobs. However, about  
20,000 of the Negroes listed in  
the report work in the public  
schools as teachers, supervisors,  
janitors and maids.
