

Alphas to Hold 59th Annual Meeting in Chicago Aug. 8-12

CHICAGO — Almost everything is in readiness for the 59th general convention of Alpha Phi Alpha fraternity, Inc., the nation's oldest Negro College organization, which is convening in grand session at the Chicago-Sheraton Hotel, from August 8-12.

More than 1,000 delegates from every State in the Union and abroad, are expected to participate in the meeting, according to general chairman, Bennie D. Brown (9427 Vernon), Chicago.

Theme of the convention is "Continuing the Thrust for Equality of Opportunity," a re-emphasis of the founding motto of the Greek-letter organization, founded at Cornell University, Ithaca, N. Y., on Dec. 27, 1906, by seven undergraduate students.

Throughout the years, the fraternity has held to its dedicated program of inspiring young Negroes to achieve and excel.

Co-hosts for the meet are the local graduate and undergraduate chapters, headed respectively by Bennett M. Stewart (650 E. 88th pl.) and Robert Harriz (1321 Avers).

The convention committee, from its Alpha House headquarters (4432 South Parkway) the fraternity's national home, has been working steadily throughout the year in preparation for the five-day sessions. Lawrence T. Young (555 E. 33rd St.) the fraternity's general secretary, directs and coordinates the organization's work.

Brown predicts the most constructive sessions in the fraternity's history and credits the success to the aggressiveness of Dr. Lionel H. Newsom, who will preside over a national convention for his first time. He took the office as president last Jan. 1, succeeding Dr. T. Winston Cole, president Wiley

the success of the six week program. He also thanked the boys in attendance and the speakers for a job well done this summer. The program will begin again in the fall with another series of clinics and lectures.

college, in Texas.

Dr. Newsom was inaugurated last May as the first Negro president of Barber-Scotia college, Concord, N. C.

Also the first Negro to earn a Ph. D. degree from Washington University St. Louis. Dr. Newsom has criss-crossed the country constantly since assuming office to re-activate fraternity members and stimulate interest in his program.

In outlining the convention program, Dr. Newsom said: "We are coming together to evaluate the fraternity's work since its convention in New York a year ago. New goals must be established and new guidelines for Alpha Phi Alpha must be formulated.

Wives and sweethearts of Alpha men will play a key role in several special events scheduled during the week. A luncheon, followed by a fashion show and bridge party will be sponsored by the wives' group for visiting guests. A tour of several Negro-owned businesses, a to Chicago parks, museums and sight-seeing tour for children zoos are scheduled.

The annual fraternity golf tournament will be held at St. Andrews Country club Monday, August 9. More than \$1,500 in prizes, with a variety of favors, will be distributed to winning participants over the 36-hole championship course, according to Charles E. Gant (3420 Cottage Grove), tournament chairman, of 3420 Cottage Grove. Dr. Irving W. Sims (745E. 87th St.) and Charles H. Washington (53-41 Maryland), are co-chairmen of the tournament.

Room of the Month

By Gaile Dugas CFN Women's Editor

This, the ultimate in bathroom luxury, is a beautiful room designed by Betty Cavallon, A.I.D. for Yale & Towne at the National Design Center, New York. Towne hardware accessories are plated with 24 karat gold and decorated with genuine semi-precious stones, white mother-of-pearl here; green jade, blue sodalite and pink quartz are also available.

What every woman wants in a luxurious, elegant yet practical bathroom has been achieved. In other words, it's here, girls. You really couldn't ask for more. Honestly.

Looking around this bath-dressing room, you see design completely attractive to the eye and color to enchant. The room is compartmentalized for maximum efficiency (all those wet towels!) into three areas: sit-down vanity and clothes storage area; bathing, lavatory and dressing areas; and the water closet area.

In the bath-dressing room, Yale & Towne has introduced new bath-room hardware accessories plated with 24 karat gold and decorated with genuine semi-precious stones. The colors are meltingly beautiful: white mother-of-pearl stones and jade green, blue sodalite and pink quartz. Exhibited at the National Design Center, New York, the room was created for Yale & Towne by Betty Cavallon, A.I.D. After all, it takes a woman to know a woman, doesn't it?

The room displays for the first time, jeweled bathroom hardware accessories: towel bars and stirrup towel rings; switchplates and electric outlets; combination toothbrush and glass tumbler holder; combination soap dish and grab bar for bath-shower section; cabinet and drawer pulls; robe hook; jeweled showerhead.

Colors for this unique bathroom are gold and white. The bath area is recessed and framed by a pair of fluted antique gold columns with white shower curtain flecked in gold. Tub is sunrise yellow with bright brass fittings; over it is a mural reproduction of Piranesi's etching, "Ponte Roma." Shower head, soap dish and grab bar are jeweled with mother-of-pearl stones.

In the dressing-lavatory area, rug is gold and towels are gold-and-white, reflecting the classical motif etched on the putty-white surfaces of cabinets and drawers. Two washbowls are in accent citron with bright brass fittings. Walls of this area are covered with foil-on-fabric which is coated.

That luxury of all luxuries that you've always longed for is here: generous towel storage! Shelves are near the washbowl and are topped by a screened compartment for hi-fi music or radio speakers. The area is lighted by a crystal chandelier, sconces and complete with gold framed mirrors, dressing table and jeweled, gold-plated Towne hardware accessories.

The water closet area is spacious, has a sunrise yellow plumbing fixture with golden accessories.

In the vanity and clothes storage area, all cabinets, drawers and dressing table are the same style as the lavatory area but have white ceramic pulls ringed in gold. Two vertical strips of jeweled vanity lights provide truly effective make-up lighting. Flooring throughout is onyx white tile which quiets sound, is easily cleaned and which repeats the classical motif throughout. There is a gold-and-white acoustical ceiling. Separating the dressing and water closet areas is a pair of fully mirrored folding metal doors.

There. Doesn't it sound delicious? Wouldn't you love to wallow in all that luxury? And gloat over the practicality? Whoever said that a woman spends most of her life in a kitchen had the wrong room. The right one is the bathroom, isn't it, girls?

This unusual bath-dressing room was developed by Yale & Towne, with such leading manufacturers as American Bilrite Rubber Company, Columbus Coated Fabrics, Fieldcrest Mills, Formica Corporation, Kohler Vanity Company, Lightolier and Marsh Wall Products, Inc.

The bath-dressing room is on free exhibition at the National Design Center, 415 East 53rd Street, New York, daily 10:30 to 5:30 through July.
