VIETNAMESE South Vietnam, with a popu lation of about 15 million, has fewer than 1,000 physicians, the Catholic Digest reports. Only 200 of these are in full-time practice. The maternal death rate is 25 times higher than in America. Less than half of all babies reach their 5th birthday. Life expectancy is only 35

STILL-LESS COGNAC

years!

A fungus makes moonshin-ing impossible in the Cognac region of France, the Catholic Digest finds. The farmhouses in this rural area have grayish stone walls and bright, red tiled roofs, except for those houses in which Cognac is stored. A fungus grows over the latter and turns them black.

OCEAN RHYTHMS

The tide cycle of the oceans varies by 50 minutes every day. the Catholic Digest states.

WESTMINSTER'S FIRST YEARS England's most famous church. Westminster Abbev, is celebrating its 900th anniversary this year, the Catholic Digest notes. More than 500 years were passed as the home of Benedictine monks - from 960 to 1559.

FIRST U. S. CENSUS

The first American census, taken in 1790, asked only five questions, one concerning the number of slaves owned, according to the Catholic Digest.

Wit, Creativity Go Together

Wit and creativity go togeth-

Studies sponsored by the Air Force show that witty persons are much more creative than those without a sense of humor. A successful witticism itself is a creative act. A researcher observed that "clowning or humor is one of several effective techniques which the creative person uses to remain in groups, and to fend off group pressures toward conformity. A creative person can gain acceptance without conforming, using wit and humor as a passport. He is accepted because he is funny; and his would-be detractors restrain their impulses out of respect for his wit.

Researchers also found that people who have a well developed capacity for the appreciation of burnor are far happier than those who don't. Persons who lack a sense of humor also are short of emotional stability, sense of well-being, self-confidence, and the ability to endure stress. Persons who have the greatest appreciation of humor also have the best contact with reality, and are the least likely to pretend to be what they are

A DINNER GUEST was bragher recent trip ging about abroad. Finally, in a conde-scending tone, she turned to the host and asked if he had ever toured Europe.

"Oh, yes," he replied, for he had been a tank commander under General Patton. "But only turret class.'

HOME FROM COLLEGE, the girl answered the phone and heard an unfamiliar male voice say, "Come on over, we're waiting for you."

Much annoyed, she inquired, To whom do you wish to speak?"

the wrong number! Nobody I know says 'whom'."
