## Your professional beautician knows the answer...

## Should every woman be a blonde?

Blonde hair is beautiful for those women whose natural coloring it flatters. But not everyone should be a blonde.

Expert beauticians know that complexion and hair color must complement each other to glamorize and bring out all the natural beauty that was meant to be. They also know that very coarse and dark hair often is resistant to drastic color changes. However, there's no doubt about slightly lighter hair adding excitement to a woman's appearance. And hairdressers know there is no better product to add a whole new appeal to every woman's look than Miss Clairol's haircoloring—extra rich Creme Formula or new extra easy Shampoo Formula.

Both Miss Clairol products lighten and color at once, combining vibrant new color with the natural pigment of the hair. So even those shades that look blonde on white hair (as shown on most color selection charts) give a variety of flattering red-to-golden brown shades on women whose hair was black to begin with.

Beauty salons are equipped to answer questions and help with hair color selection. Depend on your hairdresser to have the professional skills and the total family of fine Clairol products to make every woman's experience with haircoloring completely personal and glamorous. Should you be a blonde? If you don't really know, ask your expert hairdresser.
