### Merrick-Moore Business Pupils Hear Mrs. Crews

The junior and senior business students of Merrick-Moore High School recently heard Mrs. Lizzie M. Crews speak on "Careers in Business." She reviewed some of the opportunities now available for persons trained in the area of business, and the qualifications and personal traits essential for securing and holding the jobs. New jobs that are emerging as a result of automation and technology were also discussed.

The students were encouraged to discover their own potentials and develop them to the fullest extent, not complaining because they do not have somebody else's innate ability, somebody else's intellectual capacity, or somebody else's opportunity. Make good thy own standing place was her admonition to the students. A question and answer period followed the discussion.

Mrs. Crews an instructor in the Department of Business and Economics at North Carolina State was introduced by Mrs. Nezzie Carter, a member of the Merrick-Moore faculty.
