AGENTS WANTED in every city and town in North Carolina to sell the Carolina Times. For information on how you can earn money during your spare time, write: Circulation Manager, The Carolina Times, 436 E. Pettigrew Street, Durham, N. C.

Starve A Fever? Doctors Say No
 Let it be known that your child has a fever and you'll be swamped with such advice as "Bundle him up and let him sweat," "Keep him cool," "Starve a fever."
 As medical science has learned more about the mechanisms of fever, a more precise course of therapy has evolved.
 Just what does a fever signify? When the body's temperature rises above normal—98.6°F, orally—it is a sign that something is wrong with its ability to regulate heat. In other words, the body is producing heat faster than it is being lost.
 Contrary to folk treatments, physicians advise against bundling up a feverish patient in a hot room. Usually they advise light bed covering in a coolish room—but no drafts—to help the body get rid of excess heat.
 Instead of starving a fever, doctors suggest a high-protein, high-vitamin diet. Fever burns up protein, carbohydrates and fat at a fast rate, thus weakening the patient and causing weight loss. Also, increased fluid intake will prevent dehydration.
 Many physicians may first bring the fever under control

before treating the basic illness. This can be done by increasing fluid intake, sponging and use of pure aspirin. Aspirin is, in fact, the most widely used fever reducer.
 An article in Reader's Digest entitled "Aspirin: The Wonder Drug Nobody Understands" has this to say about aspirin: "It seems to reduce fever by acting on the body's 'thermostat' deep in the brain, increasing sweating and the flow of blood in vessels near the skin, thus speeding heat dissipation."
 Fever is not always a serious problem. Many children will show an elevated temperature due to excitement. The makers of Bayer Aspirin suggest, however, that an elevated temperature combined with other symptoms should be brought to the attention of your physician.
DRIVERS' DEAL
 If the 92 million U.S. motorists were required to prove their right to drive through a basic medical mental exam, at least 1.6 million, or 1.5 million drivers, would lose their licenses, the Catholic Digest estimates.
 • DIFFERENCE between an itch and an allergy: about \$25. Catholic Digest—June.

HERE'S HOW!
 EXPERT TIPS FOR HOMEMAKERS by Doris Thompson

DULL PENCIL SHARPENER? JUST HOLD A PIECE OF SANDPAPER AGAINST THE CUTTER AND TURN THE HANDLE BACKWARDS TO SHARPEN.

WHEN GUESTS DROP IN, IMPRESS THEM BY SERVING UP DIET PEPSI IN YOUR BEST CHILLED CRYSTAL DECANTER. IT'S FOR THE GIRL'S GIRL-WATCHERS WATCH.

SECRETLY ENJOY SOCIAL CLIMBING? DON'T WORRY. IT'S ONE OF THE LEAST OBJECTIONABLE FAULTS HUSBANDS RATE IN WIVES, ACCORDING TO A SURVEY MADE BY PSYCHOLOGIST LEWIS M. TERMAN.

COVER FRAYED SUITCASES WITH WASHABLE ADHESIVE PAPER FROM THE DIME STORE TO MAKE THEM LOOK NEW AND FASHIONABLE.

SPROUT A TWIGGY COVER GIRL LOOK

seventeen

Photo by SEVENTEEN © 1967, Triangle Pub., Inc.

It's the sporty safari look—and it gives you a very un-sporting advantage over your competition!

Another newsworthy feature is the thick and thin wale corduroy by Crompton. A kicky short pants version of this suit, made in a striped cotton, is also pictured in Seventeen. In this outfit, and in several other Seventeen designs, the waistline is the center of attention.

Twiggy models clothes that really fit—and you will probably also like this fitting tribute to your figure.

This 'n That
 by AUSTIN NICHOLS

What's the nature of belief? Watch out! This is a tricky question. To find out how tricky it is, try tossing it to your guests at your next party. You'll start a weird discussion. You can prove how smart you are by quoting that it's the belief of some philosophers and logicians, especially Pragmatists, that the essence of belief is the establishment of a habit.

Speaking of beliefs, did you know that many medieval philosophers believed that alcohol was the philosopher's stone? In fact, Arnauld de Villeneuve, a professor of medicine at the University of Montpellier in the 13th century, believed that alcohol was the key to everlasting life.

In support of his belief, he wrote, "We call it 'acqua vitae' or water of life and this name is remarkably suitable, since it is really a water of immortality. It prolongs life, clears away ill humors, revives the heart, and maintains youth."

Acqua vitae in truth is actually ethyl alcohol. When it is mixed in its pure state with an equal amount of distilled water, it is called vodka by the Russians, which means "little water."

Another misplaced belief is that vodka is of Russian origin. Actually it was originated in Poland when that country was one of Europe's great cultural nations between the 14th and 17th centuries. Today Poland's great 100 proof Wyborowa vodka is being heralded by vodka connoisseurs. A 100 proof vodka, Wyborowa (pronounced Vee-bo-ro-va) is fashionably served from ice-encased bottles into chilled 2 oz. glasses.

Speaking of origins, did you know that though bourbon bears the name of a ruling European family, Bourbon, it's as indigenous to America as the Wild Turkey that today bears the name of a 100 proof premium bourbon? In fact, The Rev. Elijah Craig, a Baptist minister, founder and headmaster of one of America's first classical schools for boys in Bourbon County, Ky., in 1789, is credited as the first man to produce it in America.
