## Personally Yours

answers questions about Junior Miss etiquette, grooming and interests.

Q. My parents have said OK to a little make-up for evening, but I make a real mess in the bathroom putting it on. How do you keep all these powdered products under control?

A. Powdered eye shadow, blush-powders, and face powders can make a bathroom sink look like a rainbow! Whenever you apply your make-up — at a dresser or lavatory — spread two or three Kleenex tissues before you open the compacts. The tissues will catch floating powders. They're also handy for wiping brushes used with these powders, and cleft-up consists of carefully folding the tissues and throwing them away. Neat, huh?

Q. White fishnet stockings are "in," but they don't look like much with my brown loafers. What kind of shoes should I wear with them and where can they be worn?

A. You're right! White's in — but so are all the pastel textured hose. Wear them anywhere you would wear stockings. But, as you discovered, they don't go well with loafers. They look best with low, fatholed shoes with definitely rounded or squared toes. If you're wearing your skirts just

above the knees, the outfit is picture perfect!

Q. I'm planning a back-yard barbecue soon after school starts and I want it to look great. How can I make groovy decorations without a lot of expense or work — clean-up included?

A. Color coordinate! Make your own matching accessories — place mats, table cloth, coasters for soft drink bottles and serving dishes. Use adhesive-backed Marvalon in a wild print to cover a coffee can and, presto! you have a vase. Cover a potato chip can for serving. Give salt and pepper shakers a new look as well. Cut mats or table cover from the same print or a contrasting color. After the party, the Marvalon just peels off, leaving no marks. And everything can be thrown away! You'll get raves for an original party, and clean-up couldn't be easier!
