

we care

what kind of coffeemaker do you use?

It really doesn't matter.

Any coffeemaker can give you a good cup of coffee, providing you use a fine fresh coffee that is ground exactly right for your coffeemaker.

We've always known that the correct grind is important to coffee flavor.

That's why, years ago, we developed Custom-Grinding. That's why we don't have just one or two grinds but seven different grind .. to fit any coffeemaker, including electric percolators, of course, (Ask for medium-fine grind for electrics).

Custom-Grinding means a little extra work for us and a little extra time for you.

(It takes 15 seconds to grind a pound).

But what a difference in flavor those few seconds make.

You know, there's only one reason we insist on selling custom-ground bean coffees... WE CARE.
