Says Youth of Today Called 'Followers'

Dr. Zelma Watson George told North Carolina College students Sunday that most of today's youth are not thinkers, but followers.

The Cleveland, Ohio, Job Corps center director said "The kind of society youth wants, which is basically the kind of society adults want, is about to come," but warned that youth cannot achieve that society by accepting blindly the leadership of "anyone who says, 'Come on, let's go!'"

Dr. George, who was formerly a member of the U. S. delegation to the United Nations, also told the students, "Don't think that youth are the only people who are angry about the material injustice in this world."

The NCC Co-ed Weekend speaker discussed four phases of the cultural revolution—the scientific revolution, the urban revolution, the secular revolution, and the revolution of youth.

She described the scientific revolution as one which has "Altered what is meant by common sense." She said we have moved from the world of Sir Isaac Newton into the world of Albert Einstein.

The urban revolution, she said, is leading toward the "merging of the entire world into a world community."

Saunders, Myrtle Taylor, Mattie Tillman, Lennie Rose and Viola B. Thompson.

"Life is no longer intimate and provincial," she said, "but anonymous and comprehensive."

The secular revolution is a "universal and crucial alteration of what might be termed the mood of man. There's a fundamental resolve in post-modern man to take nothing
