MIDLAND PARK, N.J. — Seven young men from this small community have paid with their lives in the Vietnam war. Mayor Cornelius Pontier has asked President Nixon to prevent any more from being sent to Vietnam. "I beseech you in your role as commander in chief to close the war record of this community and save us from further grief," the mayor said. New Line of Attack Arranged for Assuring Equal Job Opportunity

WASHINGTON — A new line of attack for guaranteeing equal employment opportunity in Federal contract work has been outlined by Assistant Secretary of Labor Arthur Fletcher.

Addressing contract compliance officers from some 26 Federal agencies, he said the compliance program must be streamlined and the office of Federal Contract Compliance expanded.

Fletcher cited the importance of Federal rules and regulations requiring equal job opportunity on Government contract work at this "critical time" in the Nation.

It is "absolutely essential," he said, that Executive Order

11246 be made as effective a tool as possible "to assure dignity in the job situation."

This executive order requires that Federal Contractors and subcontractors institute programs of affirmative action to achieve equal opportunity at the work place.

Fletcher, Assistant Secretary for Wage and Labor Standards, listed two planned actions for improving enforcement procedures under the executive order:

— Issuance of an order from Secretary of Labor George P. Shultz to agency heads defining their responsibilities and citing cases where the agency has failed to meet its responsibilities.
