

Over 4,000 Expected to Attend Coca-Cola National Convention

ATLANTA, GA.—More than 4,000 Coca-Cola bottling company owners, executives and operating personnel will gather in Atlanta during October for what may be the largest single-company business meeting ever convened in the United States. Planners from Coca-Cola USA's headquarters in Atlanta are expecting representatives from every state in the U. S. as well as many other nations among the 135 throughout the world where Coca-Cola is sold. The delegates will see what Coca-Cola USA spokesmen presentation over a three-day

period at Atlanta's new civic center auditorium covering all of the company's soft drinks. The presentation will include the unveiling of a new presentation of the world-famous trademark a program under development over the last five years—as well as a new advertising campaign for Coca-Cola timed to begin in late fall succeeding the very successful five-year theme, "Things Go Better With Coke."

Popular Young Saxophonist Dies

Theodore Roosevelt Speigner, Jr., age 23, died suddenly at Duke Medical Center here August 11 around 8 p.m. Funeral arrangements were incomplete at press time.

Appreciation Testimony: A Friend

Mrs. Mary Edward departed this life July 28, 1969. We were very close friends having met when I came to Durham in 1939, a stranger, to conduct a revival at Mrs. Edward's church, Bethel Tabernacle. She began to sell Bible literature for me. The venture, with the aid of her husband, later expanded into a business as I began the organization of Temple Holy Church. She received a percentage of the receipts from the sale of my song-books and Bible literature, for the benefit of the rebuilding fund of the church.

Sister Mary, for the past thirty years, was the same and was a true and wonderful friend.

The writings of St. Mathew;

25th chapter, 21st verse, best described our feelings for her: "Well done thou good and faithful servant: thou hast been faithful over a few things, I will make thee ruler over many things: enter thou into the joy of thy Lord."

Space Launch

MOSCOW Russia sent an unmanned spacecraft, Zond 7, streaking toward the Moon Friday on an undisclosed mission in the latest chapter of the space race with America. The Soviet news agency, Tass, said the craft was sent to "further study the Moon and near lunar space, to photograph the Moon's surface and to test further the improved on-board systems and space-rocket complex."

The Ford Boys Put On Their Thinking Caps and Came Up With Me...

I Am the 1970

FORD MAVERICK

ALLOW ME TO INTRODUCE MYSELF ...

You know I'm the new Ford Maverick, but you don't know all the fine qualities I possess. Let me tell you my life history: The Ford boys set out to build a completely different car, a car that would bridge the gap between compacts and imports, an economy car with more room than the compact, geared to pinch pennies not people. Then they wondered about power. They put their heads together again and let 105 galloping horses loose under the hood—52 more than the 4-cylinder VW 1500. Then they worried about safety. Could a small car be built for safety? They took a Ford light bulb and went to work. First they made the tread wider than the car is high. This gives you greater stability when big winds blow and the going gets rough. They made the brakes as big as a standard compact's designed to stop cars weighing hundreds of pounds more. Thus safety and peace of mind. When this was done they had to think of a name for their new machine. They came up with "Maverick." Why? Because a Maverick is different. It breaks the rules and Ford Maverick breaks the rules in your favor. It gives you small car economy and still keeps American driving needs in mind. Just like my 1969 brother you say? No, by being a 1970 model, depreciation will be slower. That keeps trade-in value higher, longer. Alexander has me and 24 other new Mavericks in stock. This is the only chance you'll get at a 1970 car at 1950 prices. Come on down. I want to go home with you!
