

25 YEARS OF SERVICE TO S. C. STATE — Honored for 25 years of service to South Carolina State College were Mrs. Waltena B. Jostie, Mrs. Flossie H. Clinkscales, Leroy Curry, and Mrs. Geraldynne P. Zimmerman. The four were presented appropriately engraved plaques and inducted into the institution's Quarter Century Club following a luncheon in their honor March 7. Mrs. Jostie is a secretary, Mrs. Clinkscales teaches at Felton Laboratory School, Curry works in buildings and grounds, and Mrs. Zimmerman is an assistant professor of mathematics.

"AMAZING GRACE"

By DONALD LOVE

When we speak of Grace, we think of extended time given, insurances usually have a grace period for policies. When the time or regular time runs out, there is an extended time allowed to save the policy.

Many times during the life time of a policy, we were able to keep the policy, due to the grace period clause written in the contract of the policy.

There are many reasons why we overlooked the regular time. The agents are very nice to remind us of our negligence and in many instances, pay for us, to keep us in good standing.

As much as we appreciate the extended time pertaining to our personal business affairs, there is another grace which extends and is far better than the grace just mentioned and that is the Grace of God or God's Grace.

The materialistic graces can only save our material things but it can not do anything for us spiritually.

There are many instances of how God's Grace was applied to man extending added time to his life and to time itself.

Our appreciation for God's love or Grace, fall far below standards, even so, God continues to pour out His love to us. Our actions are as our own children. The more you do for a child, the more he expects from you. His mind is made-up, his heart is fixed and his actions appear. Whatever you as a parent do for me, is no more than what you should. The children take advantage of the parent's love for them.

God permits us to arise mornings, venture into the day, run into many obstacles and we are able to overcome them. At the end of the day, we reminisce in our minds the different things that happen to us. Our final analyses are: "I was fortunate, I was lucky or I had it hard or I thought once I couldn't make

ing of poor black and poor white youngsters who now have no chance to play tennis. Junior varsity teams, he says, "would allow all of the young people to be taught the skills that they did not have and would also serve as a feeder for varsity teams."

Another alternative is free summer recreational instruction. "This could serve a twofold purpose, keeping the youths off the streets and giving them another way to

it." All the credit, we lay on good luck or bad luck. We don't see God in our successes or failures. Gos is pouring out His love at all times to and for us and our actions are as our children: what God does for me is no more than what He should."

The fourth chapter of St. James (4:13-16). "Go to now, ye that say, today or tomorrow we will go into such a city, and continue there a year, and buy and sell, and get gain: whereas ye know not what shall be on tomorrow. For what is your life? It is even a vapor, that appeareth for a little time, and then vanisheth away. For that ye ought to say, If the Lord will, we shall live, and do this, or that. But now ye rejoice in your boastings: all such rejoicing is evil.

I've heard many stories relating how and why the hymn "Amazing Grace" was written. The author was relating his conviction, the personal contact he had with God. He was able to see and know, there wasn't anything nor anybody could do a thing like that.

He no doubt had labelled himself as being one of God's worst enemies and one of the Devil's best friends. Knowing what he was before and knowing what he was after, there had come a change in his life. A wretch that he was, as for him, God's Grace was amazing.

There was another who was an alcoholic. He was so bad, to tie his shoes, he had to take a drink to settle his nerves. He too realized and had the experience of God's Grace. A song was written by him: "It is no secret what God can do, what He did for others, He'll do for you. His arms wide open, He'll pardon you, It is no secret what God can do."

There are others who had similar experiences but no records, nor has it been made known of their amazing spiritual revelation.

Coach Young says. He points out that private summer tournament, sanctioned by the U. S. Lawn Tennis Association, play important roles in development of young players.

Finally, Young notes, "Tennis could be included in the regular physical education curriculum. Many secondary schools include golf and bowling as an elective in the physical education program; why not tennis?"

RAPS "JULIA" SHOW — Tony Brown, (right) executive producer of NET's Black Journal, will appear on the David Frost Show being interviewed by guest hostess Diahann Carroll of "Julia," a program Brown has consistently criticized. (The Group W production will be seen initially on March 24 in

major cities, and on a delayed basis in others.

Do be kind to your hair-do by using Kindness Swingsetter Instant Hairsetter by Clairol. A valuable pick-me-up, it features five heat-at-once jumbo-size rollers encased in a lightweight, plastic carry-anywhere case that permits hair-setting in five minutes.

Contribute generously to the American Heart Association, 44 East 23rd Street, New York, N.Y. 10010, which reports that, in one recent year, 18,000,000 Americans had heart conditions of one kind or another. These include 350,000 persons under the age of twenty.

NCCU NEWS ROSTER

Dr. Ambrose W. Burger sees no signs that the world population in 2000 will not be 6,500,000,000, and he predicts that those 6½ billion people will be almost exclusively vegetarians.

"In the Orient, people are already vegetarians for the most part — because they have to be. They cannot afford the luxury of the corn to beef to man cycle," the University of Illinois agronomist says.

Burger was a visitor Monday and Tuesday to North Carolina Central University. The Fellow of the American Society of Agronomy spoke to students in the department of biology at the university.

Plant scientists like Dr. Burger are already looking forward to the time when a vegetarian diet is commonplace throughout the world. The staple grain crops — rice, corn, wheat — may become even more important as the supply of land decreases and the population increases.

"One important piece of research," Dr. Burger says, "has been the improvement of corn protein quality." Corn is already the dominant element of diet throughout Central and South America. It has protein content, but that protein is not complete for human consumption.

"Cows — with four stomachs — can use that protein, but if humans rely on corn as we now know it for their protein, they face protein deficiency disease."

Scientists have already discovered a type of corn which does provide the missing protein elements. This corn, Dr. Burger says, can very easily become the standard form for this part of the world.

Scientists have also begun to look for improved protein content in wheat and rice. In Mexico, a dwarf wheat variety that multiplies the yield of an acre many times is being improved in its protein content.

DEADLINE FOR THE REGISTRATION NEARS

Less than two weeks remain for prospective teachers who plan to take the National Teacher Examinations at North Carolina Central University on April 3, to submit their registration for the tests to Educational Testing Service, Princeton, N. J., Dr. Norman C. Johnson, Chairman of the Education Department, announced today. Registration forms may be obtained from the Department of Education at North Carolina Central University, Durham, or directly from the National Teacher Examinations, Educational Testing Service, Box 911, Princeton, New Jersey 08540.

At the one-day session a candidate may take the Common Examinations, which include tests in Professional Education and General Education, and one of the twenty-four Teaching Area Examinations which are designed to evaluate his understanding of the subject matter and methods applicable to the area he may be assigned to teach.

Each candidate will receive an Admission Ticket advising him of the Exact location of the center to which he should report and candidates for the Common Examinations will report at 8:30 a.m. on April 3, and should finish at approximately 12:30 p.m., Dr. Johnson said. The Teaching Area Examinations will begin at 1:30 p.m. and should finish at approximately 4:15 p.m., according to the time schedule for these examinations which has been set up by Educational Testing Service.

BOUTELL TO SPEAK TUESDAY

Paul Boutelle, a former Socialist Party candidate for Vice President and principal organizer of the Black Solidarity Party in New York City, will speak at 7:30 p.m. Tuesday, March 9, in the Alfonso Elder Student Union at North Carolina Central University.

Boutelle was a Black Solidarity Party candidate for the congressional seat formerly held by Adam Clayton Powell. His speech is sponsored by the university's Religious Activities Committee.

CO-ED BREAKFAST

Each year Co-ed Weekend at North Carolina Central University has ended with a Sunday morning breakfast, some highly successful. But none have been better attended than the one anticipated and scheduled for March 14 will be.

The prediction can be made with assurance, since the feature attraction for the breakfast is Dick Gregory, a comedian who has to be taken seriously.

Dick Gregory, according to his booking agent's promotional material, has "spent more time in southern jails, marched in more demonstrations, prevented more racial violence, and worked harder for the rights of the Negro than any other entertainer in America."

Sunday's 9 a.m. "breakfast with Dick Gregory" will fill the North Carolina Central University cafeteria, according to Mrs. Alma Biggers, dean of women at NCCU. The event, primarily for students, will be open to the public. Breakfasts will be sold cafeteria-style.

NCCU STUDENT TEACHERS TO VISIT 19 N. C. CITIES AND TOWNS

North Carolina Central University will send 104 student teachers to schools in 18 North Carolina cities and towns after three weeks of intensive preparation which began Monday, March 8.

The students completed two weeks of observation in their assigned schools Friday. Their teaching areas include art, business education, English, French, Spanish, health education, home economics, library science, mathematics, music, physical education, science, social studies, and special education.

More than half the student teachers will work in Durham and Durham County. Other towns include Hillsborough, Trenton, Graham, Oxford, Pittsboro, Elon College, Yanceyville, Clayton, Chapel Hill, Swan Quarter, Creedmoor, Bunnlevel, Southern Pines, Fayetteville, Erwin, Roxboro, and Apex.

NCCU ATHLETIC DIRECTOR SAYS INTEGRATION CAUSING EXTINCTION OF BLACK TENNIS PLAYER

North Carolina Central University's Dr. James W. Young, writing in the March issue of "Tennis" magazine, says public school integration may mean the extinction of the black tennis player, with few exceptions.

Young says most black tennis players were trained in predominantly black public school physical education and athletic programs. "With the phasing out of these schools and a change in the head coaching personnel from black to white, all athletic areas have been affected — but most notably tennis," Young says.

"Most black youngsters neither have the advantage of country clubs and professionals to teach them during their formative years nor the opportunity to play on tennis courts other than those provided by public schools or city recreational departments," the NCCU athletic director and tennis coach says.

He says that it is understandable that tennis coaches in integrated schools seek their varsity players from among the youngsters who have had previous experience in the game. "All that the coaches have to do is help them improve skills already acquired," Young says. The black child without the private club background is left "on the outside looking in, and soon the desire to look in disappears."

Young offers three suggested programs for the training of poor black and poor white youngsters who now have no chance to play tennis. Junior varsity teams, he says, "would allow all of the young people to be taught the skills that they did not have and would also serve as a feeder for varsity teams."

DUKE EMPLOYEES COMPLETE UPGRADE COURSE — These patients care assistants and clinic assistants at Duke Hospital went back to school during February to sharpen their nursing skills. Completion of the five-week class enables them to take more responsibility in caring for patients. The course, organized by Duke's Patient Care Education Department, included both classroom

work and clinical training on the wards. The new graduates from left to right, first row: include Mrs. Geraldine Lunsford, Mrs. Mary Salmon, and Mrs. Susan Lanier. Second row: Monday Crowell, Miss Yvonne Bradshaw, Mrs. Wisdom Watson, Mrs. Clementine Price, Mrs. Fredia Prince, and C. D. Foster, Jr. Not present when the photograph was taken were Richard Green and Edward Phillips.

Since August 1970 the two Concorde prototypes (British-French supersonic transport aircraft) have gone into their fourth testing phase which has taken the two aircraft from the Mach 1.5 range up into speeds of Mach 2 (twice the speed of sound). The only precedents for large aircraft flying above the speed of sound were the U. S. B-58 and B-70 bombers.

Harlem Prep Gets Pledge of \$250,000 from J. S.

NEW YORK — Harlem Prep, an innovative school for urban dropouts, today received a pledge of \$100,000 to meet its immediate needs and an additional \$150,000 over the next two years from Standard Oil Company (New Jersey), thus helping the financially-troubled school to continue operating and to launch its long-range fund-raising efforts on a sound basis.

Edward F. Carpenter, headmaster of the school, said that this support was "just what we needed to convince these remarkable young people that we have not failed them, and that society has not failed them."

"This contribution," Mr. Carpenter added, "insures that Harlem Prep will be in business for the remainder of the academic year and will place us on surer financial footing for the long pull. We're delighted."

Harlem Preparatory School was founded in 1967 as an experiment to prove that high school dropouts, mostly from the black and Puerto Rican communities, were in fact good college material. The school has been a success. Each of its 204 graduates has entered college, on scholarships. College acceptance is one of the prerequisites for graduation from Harlem Prep. Many of the students have had five or more offers.

The school has been supported by grants from corporations and foundations, but additional financial help recently became urgent. The pledge of \$250,000 made today at Harlem Prep by Clifton C. Garvin, Jr., executive vice president of Jersey Standard, brings the company's commitment to \$460,000 since the school's inception. Mr. Garvin said the company has "moved in to help fill the gap because we think Harlem Prep meets a vital educational need in New York."

Robert J. Mangum, Commissioner of the New York State Division of Human Rights, and chairman of the Board of Trustees of Harlem

Prep, announced Jersey Standard's pledge at the storefront school at 2535 Avenue, near 136th Street in Manhattan today. Mr. Mangum pointed out that Harlem Prep seeks additional financial support from other corporations, as well as from foundations and the general public. "Our school must continue to point the way to educational reform and to make secondary education more relevant to disadvantaged young people," he remarked. "It is my hope to meet soon with other business leaders to enlist their help and thus assure the future of Harlem Prep."

ported by grants from corporations and foundations, but additional financial help recently became urgent. The pledge of \$250,000 made today at Harlem Prep by Clifton C. Garvin, Jr., executive vice president of Jersey Standard, brings the company's commitment to \$460,000 since the school's inception. Kids March into Spring at Sears, Roebuck Flag-waving Event

CHICAGO — "Old Glory" will be saluted this Spring in children's sportswear of bright and snappy hues of red, white and navy blue.

Flag-waving colors give a spirited welcome to Spring. This season will see a renewed interest in our national colors with the emergence of denim as a leader in the fashion parade. Denim, which rose to fashion leadership via the acceptance of western jeans as a classic, will lend its appearance to a host of fabrics including new denim-look knits.

Fashion from the children's store at Sears will feature red, white and blue in dazzling stripes and solids for knit shirts and stay-neat, perma-Prest jeans and shorts — for the wee folk.

Winnie-the-Pooh, too, picks

this bright triumvirate of color for his sportswear collection. Color is important to Pooh, who has the only truly coordinated collection of children's wear in which socks and shirts are dyed to match all slacks and shirts, jackets and jeans in each designer collection.

This Spring, little girls will shine in Winnie-the-Pooh's white pique separates. Don't worry, Mom, they're all machine-washable and Perma-Prest with no wrinkles in sight when tumble-dried.

Pooh's favorite, of course, is his signature print collection. His name is boldly spelled out in an overall print of navy on white, and is available in all sorts of smart styles for little girls and boys.

Cocoa-Cola Sales and Earnings Report Increase for Past Year

ATLANTA — The Coca-Cola Company today announced record sales and earnings for 1970, and an increase in the quarterly dividend rate.

Following a meeting here of the Directors, Company Board Chairman and President J. Paul Austin said that per share earnings were up 13 percent increase over 1969 sales of \$1,422,063,013.

The Board approved an increase in the quarterly dividend to 39½ cents per share from the previous rate of 36 cents per share. On an annual basis, the new dividend amounts to \$1.58 per share, compared to the amount paid in 1970 of \$1.44, an increase of 10 percent. This is the ninth consecutive year that directors have approved dividend increases. The new dividend is payable April 1, 1971,

to stockholders of record at the close of business on March 12, 1971.

Mr. Austin reported that consolidated net profit for 1970, after reserved, taxed and all other charges, amounted to \$146,875,967, or \$2.48 per share, compared to \$130,238,315 or \$2.20 per share in 1969, an increase of 13 percent in earnings per share. Net profit for the fourth quarter of 1970 was \$31,258,840, or 53 cents per share, compared with \$26,488,086, or 45 cents per share in the last quarter of 1969, an increase of 18 percent.

Provisions for income taxes for 1970 were \$144,307,000 compared to \$132,931,000 in 1969.

Justice Department sets up consumers unit.
