Dr. Dowdy Urges Grants, Not Loans, For Students

WASHINGTON, D. C.—Putting federal aid to college students on a loan basis would prove to be especially harmful to blacks, the president of A&T State University told a Congressional committee.

"It is too much for the disadvantaged student to take," Dr. Lewis Dowdy told the House Education and Labor

Committee in Washington. HE SAID IT IS conceivable that two such students might marry and "start out with a \$20,000 debt before they even bought the first diaper or baby crib. If you think we have national frustration now, this could cause universal, simultaneous suicide."

Your professional hairdresser knows the answer . . .

Was haircoloring first done in Africa?

Centuries ago in Africa (before it was explored by Europeans) beautiful black women used herbs and other ingredients to change the color of their hair. It was one way to complement their dark rich complexions . . . to accent their natural warmth and beauty. Whether or not Africans were the first to use this method, no one is sure. Yet, they are among the first in terms of recorded history to go through the then-tedious process of coloring their hair.

Today changing your haircolor can be as quick and as brief as a visit to your professional hairdresser. That's because many professional hairdressers use Miss Clairol® Hair Color to lighten hair, to make slight color changes and to cover gray. Hairdressing experts know that exotic blacks and browns are generally gorgeous for darker skin tones. Golden or red shades are stunning for lighter tan complexions.

Today black pride brings you closer to the cultural ways of your African heritage. Haircoloring is a part of black history too. Ask your professional hairdresser about changing your hair color with Miss Clairol . . . and be more beautiful than you already are.
